

# Summary of Changes

USMEPCOM Regulation 611-1, June 6, 2006  
Personnel Selection and Classification  
Enlistment Qualification Tests

**Specifically, this revision—**

- Adds requirement for the military entrance processing station (MEPS) test control officer (TCO) to ensure MEPS test administrators (TAs) conduct up to 5 percent of testing, balanced between student and MET site testing (par. 1-6).
- Updates control and storage requirements (par. 2-3e).
- Updates addresses for requisitioning Alternate Flight Aptitude Selection Test (AFAST), Assessment of Individual Motivation (AIM) test, auditory perception (AP) test, Defense Language Aptitude Battery (DLAB), and Defense Language Proficiency Test (DLPT) test material (par. 2-7).
- Adds requirement of DD Form 368 (Request for Conditional Release) to take the Armed Services Vocational Aptitude Battery (ASVAB) (par. 3-2a(3)).
- Deletes requirement to use DD Form 368 (Request for Conditional Release) for special purpose testing (par. 5-3a(3)).
- Updates enlistment packet requirements for DLTPs (par. 5-7g(4)).
- Updates scoring requirements for American Language Course Placement Test answer sheet (par. 5-7h(3)).
- Updates USMEPCOM Form 611-1-18-R-E, (Military Entrance Test Site Update Sheet) for clarity.
- Changes the name of the mobile examining team site to military entrance test site (throughout).

DEPARTMENT OF DEFENSE  
HEADQUARTERS, UNITED STATES MILITARY ENTRANCE PROCESSING COMMAND  
2834 GREEN BAY ROAD, NORTH CHICAGO, ILLINOIS 60064-3094

USMEPCOM Regulation  
No. 611-1

June 6, 2006

Effective : June 26, 2006

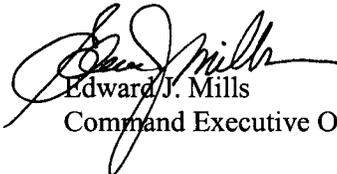

**Personnel Selection and Classification  
ENLISTMENT QUALIFICATION TESTS**

---

FOR THE COMMANDER:

OFFICIAL:

D. R. O'Brien  
Deputy Commander/Chief of Staff

  
Edward J. Mills  
Command Executive Officer

DISTRIBUTION:

A (Electronic only publication)

---

**Summary.** This regulation establishes policies and procedures for test material accountability, test administration, management of military entrance test (MET) sites, special purpose testing, retest policies for special purpose tests, confirmation testing, overseas testing, and appointment.

**Applicability.** This regulation applies to Headquarters, United States Military Entrance Processing Command (HQ USMEPCOM), sectors, and military entrance processing stations (MEPS) testing personnel.

**Supplementation.** Supplementation of this regulation and establishment of forms other than United States Military Entrance Processing Command (USMEPCOM) are prohibited without prior approval from HQ USMEPCOM, ATTN: J-3/MOP-TD, 2834 Green Bay Road, North Chicago, IL 60064-3094.

**Suggested improvements.** The proponent agency for this regulation is HQ USMEPCOM, J-3 (Operations), J-3/MOP-TD. Users are invited to send comments and suggested improvements on DA Form 2028 (Recommended Changes to Publications and Blank Forms), or memorandum, to HQ USMEPCOM, ATTN: J-3/MOP-TD, 2834 Green Bay Road, North Chicago, IL 60064-3094.

**Management control process.** This regulation contains management control provisions and identifies key management controls that must be evaluated. The management control evaluation checklist is in appendix B.

---

\*This regulation supersedes USMEPCOM Regulation 611-1, 20 December 2005.

**Glossary**

**Chapter 1**  
**General**

**1-1. Purpose**

The purpose of this regulation is to establish policies, procedures, and responsibilities for the use of the Enlistment Armed Services Vocational Aptitude Battery (ASVAB) and other testing instruments used to determine qualifications for enlistment and classification.

**1-2. References**

References are listed in appendix A.

**1-3. Abbreviations and terms**

Abbreviations and terms used in this regulation are listed in the glossary.

**1-4. Responsibilities**

**a. Commander, United States Military Entrance Processing Command (USMEPCOM), will—**

- (1) Administer the Department of Defense (DOD) Enlistment Testing Program.
- (2) Implement quality assurance procedures to ensure enlistment test battery accuracy.
- (3) When approved by the Under Secretary of Defense for Personnel and Readiness, administer additional tests to determine qualifications for military occupations or assignments.
- (4) Print and distribute supplies of test materials, counseling materials, and training aids for use in the DOD enlistment and overseas testing programs.
- (5) Maintain sufficient stock of test and career guidance support materials.
- (6) Monitor operational test and item data.
- (7) Upon request, provide periodic testing data to the recruiting services.
- (8) Establish procedures to investigate prohibited actions and situations in the DOD Enlistment Program.
- (9) Endorse written investigative reports of test loss or compromise to Headquarters, Department of Army, when required.

**b. Sector commanders will—**

- (1) Monitor the day-to-day tactical operation of testing programs in the military entrance processing station (MEPS).
- (2) Refer to the Office of Personnel Management (OPM)-related matters that cannot be resolved at sector/OPM National Program Office level to J-3/MOP-TD.

**c. MEPS commanders will—**

- (1) Appoint test administrators (TA) in writing.

(2) Designate personnel authorized access to the testing restricted secure storage room, and accountable test material by memorandum.

(3) Test eligible applicants referred by the services.

(4) Conduct approved special purpose testing.

(5) Control accountable test material.

(6) Provide applicant test results to the sponsoring service's liaison.

(7) Coordinate testing matters that cannot be resolved with appropriate service activity or OPM service centers.

(8) Ensure Computerized Adaptive Testing Armed Forces Vocational Aptitude Battery (CAT-ASVAB) rooms and special purpose testing rooms have no windows. The exception is a maximum 8-inch by 20-inch door side light on or next to the door. Windows already in existence must be blocked at all times. Ensure CAT-ASVAB rooms have standardized furniture (coordinate with J-3/MOP-TD) prior to purchasing furniture.

**Note:** Dimensions for the tables: 72 inches long, 30 inches wide and 29 inches from the floor. Dimensions for the chairs: Chair seats are 18 inches from the floor.

**d. MEPS test control officers (TCOs) will—**

(1) Manage and operate the testing section.

(2) Maintain security and control of accountable test material.

(3) Exercise close supervision and accountability over accountable test material receipt, storage, protection, issue, administration, scoring, and destruction. Ensure only authorized personnel handle accountable test material and understand their requirements.

(4) Advise the MEPS commander of current testing policies and procedures.

(5) Monitor scheduling of enlistment testing.

(6) Ensure initial training for MEPS personnel assigned testing duties.

(7) Coordinate testing at military entrance test (MET) sites and schools with OPM personnel.

(8) Develop, publish, and annually update standing operating procedures (SOP), including detailed OPM contingency plan for testing. Maintain the testing SOP separate from the MEPS Operations SOP.

(9) Develop, publish, and annually update SOP (to be kept in the MEPS) for testing.

(10) Inspect MET sites and evaluate OPM TAs as prescribed in chapter 4 of this regulation.

(11) Provide a consolidated MET site list in a memorandum through sector to J-3/MOP-TD not later than (NLT) 30 September of each year. The list will contain the MET site code, name, location, and frequency of testing (days and times). Current information can be found at <http://www.mepcom.army.mil/meps.asp>.

(12) Forward the Army Personnel Testing (APT) Duties and Security Awareness Briefing with a copy of the primary duty appointment memorandum to Education Division (AHRC-PDE/APT), U.S. Army Human Resources Command, 200 Stovall Street, Suite 3N17, Alexandria, VA 22332-0472. The APT Duties and Security Awareness Briefing and sample memorandum format can be found at [http://www.aces.army.mil/apt/APTSample Memorandum.htm](http://www.aces.army.mil/apt/APTSample_Memorandum.htm).

**Note:** This site is not available to all personnel, a password is required.

(13) Conduct semi-annual Air Force Testing Material Inventories using the inventory provided by Air Force Publications Distribution Center. Forward results as directed with a courtesy copy to sector.

(14) Conduct semi-annual Army Testing Material Inventories using the inventory provided by Human Resources Command. Forward results as directed with a courtesy copy to sector.

(15) Supervise all members of the testing section.

**e. The MEPS test score technician (TST) will—**

(1) Ensure test scores are valid and entered into the automated United States Military Entrance Processing Command Integrated Resources System (USMIRS).

(2) Resolve test scoring automation issues.

(3) Train testing clerks on proper test score data entry.

(4) Serve as liaison to MEPS service liaisons for test score report.

(5) Assist TCO with duties related to accountable and controlled test materials as defined in regulatory guidance.

**f. The MEPS lead test clerk will—**

**Note:** This position will be applicable only at selected MEPS.

(1) Lead TAs.

(2) Conduct aptitude examinations at the MEPS, MET sites, high schools, and post secondary schools.

(3) Brief applicants, distribute and proctor examinations, score exams, perform quality control of examination and applicable applicant information.

(4) Inspect MET site facilities and evaluate the performance of the OPM TAs.

(5) Conduct inventories of test materials as required and ensure strict accountability and security of all testing materials.

**g. TAs will—**

(1) Prepare test materials prior to a test session.

(2) Distribute test materials to applicants.

(3) Ensure balanced usage of all test versions.

(4) Ensure no two adjacent testers have the same test versions.

(5) Ensure the social security number (SSN) on USMEPCOM Form 680-3A-E (Request for Examination) and the answer sheets are identical.

(6) Follow proper testing procedures during test sessions.

(7) Ensure tests are scored and results are recorded accurately.

(8) Ensure administrative test errors are corrected.

**1-5. Additional duty appointment memorandum**

MEPS commanders will use an additional duty appointment memorandum to appoint TAs. Include in the memorandum the effective date, the name(s) of the individual(s), the authority line, period of the appointment, distribution line, and any other special instructions. File the original memorandum under record number 1e; disposition instructions are in appendix A, section VI.

**1-6. Training**

MEPS commanders will ensure initial training for MEPS personnel assigned testing duties is conducted within 30 days of arrival and quarterly refresher training is conducted in security, accountability, and ASVAB administration. MEPS TA's are required to maintain proficiency in administering both the CAT-ASVAB and paper and pencil ASVAB examinations. The MEPS TCO will ensure MEPS TAs conduct up to five percent of testing, balanced between Student and MET site testing. Maintain MEPS personnel training records under record number 1w; disposition instructions are in appendix A, section VI. In addition, ensure annual refresher training is conducted for OPM TAs per USMEPCOM/OPM memorandum of understanding (MOU).

## **Chapter 2 Security and Accountability**

### **2-1. Accountable test material**

Accountable items include test booklets, cassettes, CAT-ASVAB computer disks/CDs, Basic Attribute Test (BAT) software, BAT CPU key, partially or completed answer sheets, scoring keys, personal digital assistants (PDAs), ASVAB10 and Armed Forces Qualification Test (AFQT) scoring modules, and scratch paper with annotations used for ASVAB or special purpose test administration.

**Note:** Non-accountable materials include blank answer sheets (maintain the sheets in a secure storage room to prevent unauthorized use) and manuals for administration and scoring. Do not add these items to USMEPCOM Form 611-1-8-R-E (Inventory of MEPS Accountable Test Material) or log these items on USMEPCOM Form 611-1-9-R-E (Daily Inventory Log). However, if any special purpose test administration or scoring manuals are received marked "Controlled Item (Test Material)", these materials must be added to USMEPCOM Form 611-1-8-R-E and USMEPCOM Form 611-1-9-R-E.

### **2-2. Test security**

a. The MEPS commander will designate a restricted area within the MEPS for storing/using accountable material. Testing rooms are restricted areas during test administration only. The CAT-ASVAB and BAT testing rooms, as well as the secure storage room and scoring room, must be restricted at all times, to include being locked when authorized personnel are not in the room(s) and screening personnel entry. Access to the secure storage room will be limited to testing section personnel only (see par. 2-2c. below).

b. A "RESTRICTED AREA, AUTHORIZED PERSONNEL ONLY" sign will be posted at main entrances/exits to the restricted area(s). Test rooms not permanently restricted must have a sign posted during test administration only. Signs are not required for rooms if they are within the test room and do not have outside access (i.e. a room inside a room) and are not being used to test.

c. The MEPS commander will designate personnel authorized unescorted access to testing section restricted areas (fig. 2-1), secure storage room (fig. 2-2), and accountable test materials by memorandum. The secure storage room access roster will be limited to testing personnel only. A copy of the memorandum will be posted at main entrances/exits to the restricted area(s). Test rooms not permanently restricted must have a memorandum posted during test administration only.

d. On a case-by-case basis, the MEPS commander or TCO/TST can orally grant unescorted access to the testing section restricted areas. This will normally be for cross trainees or during the initial orientation of new personnel. When the authorization period exceeds 10 consecutive working days, the procedures in "c" above apply.

e. As needed, TCOs, TSTs, or education services specialists can grant escorted access to testing section restricted areas as long as the escort maintains positive control of the guest while in the room. This does not apply to rooms where accountable test material is stored.

f. Do not release or show accountable test material designated for use by MEPS to any outside agency or to any persons other than authorized USMEPCOM and OPM personnel.

### **2-3. Control and storage procedures**

a. Secure all accountable test material in locked security containers in a locked room. Equip the locked containers with a built-in key lock, a three-way combination lock, or a bar and hasp secured with a changeable combination lock.

b. Change one level of lock combinations (i.e., security container lock or room door lock) within 12 months of previous change. Upon departure of any individual authorized access to the secure storage room change one level of lock combination within 15 days of departure from the testing section.

c. Record the combination on the standard form (SF) 700 (Security Container Information). Once completed, sign across the flap of each SF 700 envelope. Post part 1 of the original SF 700 in the top drawer of each container. If the door is equipped with a cipher-lock, place part 1 of SF 700 on the back of the door. Place part 2As inside of part 2 of SF 700 envelope, seal and sign across the flap of each SF 700 envelope. Place the SF 700 envelopes in one plain envelope, seal, sign, and date across the flap. The envelope with the SFs 700 inside will be stored in the MEPS' headquarters security container under record number 1v1; disposition instructions are in appendix A, section VI. Forms involved in an investigation will be kept until the investigation is completed.

d. A SF 702 (Security Container Check Sheet) will be maintained on each container used to store accountable test material, including the entrance to the secure storage room. Blocks 1 and 2 are completed upon opening and closing the container. Block 3 is initialed at the close of every business day, even if the container was not opened during that business day. Keep this form under record number 1v3; disposition instructions are in appendix A, section VI. Forms involved in an investigation will be kept until the investigation is completed. The same individual can initial blocks 1, 2, and 3.

e. Do not maintain booklets, cassettes, or CDs in the same safe as the scoring keys for same corresponding test.

f. CAT-ASVAB requires the following special security precautions:

(1) Do not transfer CAT-ASVAB disks/CDs between MEPSs.

(2) Store CAT-ASVAB disks/CDs in diskette/CD binder sheets, inside a 3-ring binder. Remove CAT-ASVAB disks/CDs from the secure storage room using a zippered binder.

(3) Never leave the CAT-ASVAB system on after a test session.

(4) The CAT-ASVAB pass code will be limited to the information technology specialist, assistant information technology specialist, testing section personnel, and appropriate CAT-ASVAB MET site OPM TAs.

(5) Do not install any software on the system other than Headquarters, United States Military Entrance Processing Command (HQ USMEPCOM) approved CAT-ASVAB software. Report receipt or discovery of unauthorized disks/CDs to J-3/MOP-TD through sector.

(6) Do not substitute any other computer equipment for CAT-ASVAB equipment.

(7) MEPS personnel are not authorized to use any software to backup hard drives of the CAT-ASVAB file server, MET site data transfer server, TA's station, or examinee test station.

g. The TCO/TST may place accountable test material in sealed envelopes or boxes to ease storage and accountability. This is most commonly accomplished for material not frequently used. If done, the TCO/TST must conduct a page-by-page check on test material before sealing the envelope/box. Ensure the envelope/box reflects the exact contents, quantity, and serial numbers of the accountable test material inside. Sign, seal and date across the envelope/box. Store the envelope/box inside an approved security container as described in "a" above. When material is stored in this manner, these containers do not need to be opened during the annual inventory, but must be opened and checked during the joint inventory.

h. When transporting accountable test material, maintain strict accountability. On a case-by-case basis, the MEPS commander may authorize TAs to temporarily store material in locked containers in their homes overnight.

i. OPM TAs may store accountable test material at the OPM Testing Region, following the same security procedures in “a” above. When an OPM TA stores accountable test material at home, he or she must store it in a lockable container. OPM TAs will monitor and secure accountable test material according to guidance in OPM career entry (CE) 611-1 (Handbook for Administering the Armed Services Aptitude Battery (ASVAB)).

#### **2-4. Inventory procedures for accountable test material**

a. There are three types of inventories: annual, joint, and other. Document the annual, joint, and other inventories, by using the automated inventory software program provided by HQ USMEPCOM (J-3/MOP-TD). When recording materials, use the actual assigned number or name of the item (i.e., Air Force Personnel Test (AFPT) 60 or Electronic Data Processing Test (EDPT)).

b. The following abbreviations will be used when recording accountable test material on inventory documentation: TB-test booklet, SK-scoring key, C-cassette, D-disk, CD-compact disk.

c. Track accountable test material by name and serial number on USMEPCOM Form 611-1-8-R-E.

d. Inventory documentation is considered as USMEPCOM Form 611-1-1-R-E (Annual, Joint, Other Inventory of Accountable Test Material), USMEPCOM Form 611-1-8-R-E, USMEPCOM Form 611-1-11-R-E (Statement of Destruction of Test Materials), receipts for accountable test material, and memorandums reflecting transfer of accountable test material.

#### **2-5. MEPS inventory procedures**

##### **a. Annual inventory.**

(1) The TCO/TST and one disinterested witness (MEPS personnel not in the testing section and who have not been designated as a TA) will annually inventory accountable test material. This page-by-page review must be conducted within 12 months from the previous annual inventory date. The TCO/TST will record the inventory using the automated inventory software and print new USMEPCOM Forms 611-1-1-R-E and 611-1-8-R-E reflecting the date of completion, the current list of items on hand, and any discrepancies noted in the “comments” section. The TCO/TST must sign USMEPCOM Form 611-1-1-R-E and initial each page of USMEPCOM Form 611-1-8-R-E. The disinterested witness must sign USMEPCOM Form 611-1-1-R-E and initial each page of USMEPCOM Form 611-1-8-R-E. In addition, the MEPS commander will initial USMEPCOM Form 611-1-1-R-E in the “comments” section verifying the requirement was met.

(2) Maintain USMEPCOM Forms 611-1-1-R-E and 611-1-8-R-E under record number 601-222f; disposition instructions are in appendix A, section VI.

##### **b. Joint inventory.**

(1) Incoming and outgoing TCOs will conduct a joint inventory of accountable test material at the MEPS, within 7 calendar days after the date of the incoming TCO appointment letter. If a replacement TCO has not been assigned before departure of the incumbent TCO, the incoming TCO will conduct a

joint inventory with the TST. In addition, the MEPS commander will initial USMEPCOM Form 611-1-1-R-E in the “comments” section verifying the requirement was met.

**Note:** Joint inventories satisfy the annual inventory requirement as long as no more than 12 months pass between inventories.

(2) Both TCOs will conduct this page-by-page review, and record the inventory using the automated inventory software. New USMEPCOM Forms 611-1-1-R-E and 611-1-8-R-E will be printed to reflect the date of completion, the current list of items on hand, and any discrepancies noted in the “comments” section. Both TCOs will sign USMEPCOM Form 611-1-1-R-E and initial each page of USMEPCOM Form 611-1-8-R-E.

(3) Maintain USMEPCOM Forms 611-1-1-R-E and 611-1-8-R-E under record number 601-222f; disposition instructions are in appendix A, section VI.

**c. Other inventories.** Other inventories do not satisfy the annual or joint inventory requirements.

**Note:** Each testing section will always have on file under record number 601-222f an annual or a joint inventory. Any other inventories (destructions and additions of accountable test material) will be maintained until the next annual or joint inventory is approved.

**(1) Receipt of accountable test material.**

(a) The TCO/TST and a disinterested witness will inventory (page-by-page check of the accountable test materials received at the MEPS).

(b) The TCO/TST must immediately add permanent accountable test material received to their inventory using the automated inventory software, and print new USMEPCOM Forms 611-1-1-R-E and 611-1-8-R-E reflecting the date of completion, the current list of items on hand, and the reason for reprinting the inventory in the “comments” section. The TCO/TST must sign USMEPCOM Form 611-1-1-R-E and initial each page of USMEPCOM Form 611-1-8-R-E. The disinterested witness must sign USMEPCOM Form 611-1-1-R-E and initial each page of USMEPCOM Form 611-1-8-R-E. Attach the receipt document to the back of the current inventory sheet. Maintain the forms and documents under record number 601-222f; disposition instructions are in appendix A, section VI.

(c) If a shipping document is not received or the shipping document does not contain serial numbers of the items, prepare a memorandum for record (MFR) listing the material received, quantity, and serial numbers (if available). If accountable material is received and it does not contain a serial number, notify J-3/MOP-TD through your sector. J-3/MOP-TD will contact the materials proponent unit for guidance. The TCO/TST and a disinterested witness will sign the MFR and attach to the most recent inventory. Contact sector to resolve the discrepancy.

(d) If not marked upon receipt, the TCO/TST will mark accountable test material “CONTROLLED ITEM (TEST MATERIAL)” except for scratch paper and answer sheets.

(e) The TCO/TST will stamp accountable test material, with the exception of scratch paper and answer sheets, with the MEPS’ office symbol (e.g., Spokane MEPS will be MCO-WSK). Materials with previous office symbol do not need to be stamped again.

**(2) Destruction of accountable test material.**

(a) Destroy accountable test material (paper) by burning, shredding, or mulching. Scratch paper and answer sheet spines with computations, item responses, or complete SSNs are considered accountable test material and must be returned to the MEPS for destruction. Destroy CAT-ASVAB disks by breaking open the outer case and shredding the inner film. Destroy scratch paper immediately.

Maintain completed answer sheets under record number 601-222d; disposition instructions are in appendix A, section VI.

(b) The TCO/TST and a disinterested witness will destroy accountable test material. Document the destruction of accountable test material, except answer sheets and scratch paper, on USMEPCOM Form 611-1-11-R-E. The TCO/TST and a disinterested witness must sign this form upon destruction of the material.

(c) The TCO/TST must immediately remove destroyed accountable test material from the inventory using the automated inventory software, and print new USMEPCOM Forms 611-1-1-R-E and 611-1-8-R-E reflecting the date of completion, the current list of items on hand, and the reason for reprinting the inventory in the "comments" section. The TCO/TST will sign USMEPCOM Form 611-1-1-R-E and initial each page of USMEPCOM Form 611-1-8-R-E. The disinterested witness must sign USMEPCOM Form 611-1-1-R-E and initial each page (when applicable) of USMEPCOM Form 611-1-8-R-E. Attach USMEPCOM Form 611-1-11-R-E to the back of the new inventory. Include applicable destruction guidance (i.e. e-mails, official messages). Maintain the forms under record number 601-222f; disposition instructions are in appendix A, section IV.

(d) If Air Force special purpose test material is destroyed, a copy of USMEPCOM Form 611-1-11-R-E must be provided to the U.S. Air Force Publications Distribution Office (AFPDO) (see par. 2-7h(2)). If Army special purpose test material is destroyed, a copy of USMEPCOM Form 611-1-11-R-E must be provided to Human Resources Command (see par. 2-7h(1)).

(e) MEPS will receive an inventory of Air Force special purpose test material maintained at their MEPS from the AFPDO twice per year. The TCO/TST will ensure the inventory is accurate and resolve discrepancies with AFPDO if necessary. Maintain one copy of the inventory under record number 601-222f; disposition instructions are in appendix A, section VI.

### **(3) Removal of material from the secure storage room.**

(a) Each time accountable test material is removed from or returned to the MEPS' secure storage room, an entry must be recorded on USMEPCOM Form 611-1-9-R-E. No entry is required for material being destroyed or permanently transferred. The MEPS testing section personnel will maintain one log for all material; whiteout will not be used. The log will be maintained in a 1-inch binder. Place record label 601-222f on the binder (see app. A, sec. VI). If the binder is full, the MEPS testing section is allowed to keep the most recent 6 months of USMEPCOM Form 611-1-9-R-E in the binder and the previous months in a file in the testing section file drawer. The binder will be kept in the secure storage room accessible to all TAs, but does not have to be in a bookshelf, safe, etc.

(b) The individual removing the material must complete a page-by-page check of the material before removal. He or she must annotate the date, test item, quantity, and serial number of the items being removed, as well as initial in the "Removed By" block. Upon return to the secure storage room, the same person that removed the item(s) must conduct a page-by-page check of the material and initial in the "Returned By" block.

(c) A second individual will verify return of the material and initial in the "Verified By" block. The verifier must conduct a complete count of material being returned, but is not required to conduct a page-by-page check as the individual returning the material. When a second individual is not available to verify the return (e.g., night testing), verification will be accomplished by the TCO/TST at the start of the next workday.

(d) If an error is made on an entry, correct it by drawing a single line through the mistake, annotating the accurate information, and initialing the block.

(e) If a TA is relieved for any reason during a test session, the outgoing and incoming TAs will conduct a joint inventory of the material removed. Upon completion, the outgoing TA must initial in the "Returned By" block and the incoming TA must initial in the "Verified By" block of the open entry. Once finished, the incoming TA must annotate the required entries described in (2) above. The incoming TA now assumes responsibility for the material and for returning it to the secure storage room appropriately.

(f) An option to the single line entry for each item is to use test kits. Test kits include many items specifically identified by a memorandum. As reflected in figure 2-3, the memorandum will include the exact nomenclature, quantity, and serial number(s) of each item making up the test kit. The TA removing the material will conduct a page-by-page check of the material listed, sign the memorandum, and attach the original copy of the memorandum to USMEPCOM Form 611-1-9-R-E (sample memo at fig. 2-4). In addition, the TA must annotate the date and test kit title on the form, plus initial in the "Removed By" block. The quantity and serial number blocks are left blank, as they are indicated on the memorandum. A copy of the memorandum must be maintained in the test kit for on-site inventory and control. Upon return to the secure storage room, the same person that removed the item(s) must conduct a page-by-page check of the material and initial in the "Returned By" block. A second individual will verify return of the material and initial in the "Verified By" block. When a second individual is not available to verify the return (e.g., night testing), verification will be accomplished by the TCO/TST at the start of the next workday. Attach the memorandum to USMEPCOM Form 611-1-9-R-E.

(g) After the last entry is made on each sheet, the TCO/TST will review the completed form for accuracy. When a discrepancy is identified, the TCO/TST will train the responsible TA in the correct procedures, verify the material has been returned to the secure storage room, and ensure the correction is made to USMEPCOM Form 611-1-9-R-E. Upon ensuring the form is accurate, the TCO/TST will initial in the "Reviewed By" block in the upper right-hand corner.

(h) Maintain USMEPCOM Form 611-1-9-R-E under record number 601-222f; disposition instructions are in appendix A, section VI.

**d. Relocation.** In the event that a MEPS test storage room must relocate to a different facility/building, an annual inventory will be conducted both before and immediately after the relocation.

## **2-6. Transfer of accountable test material**

a. Accountable test material at a MEPS may only be transferred to another MEPS, sector, J-3/MOP-TD, and the OPM service center supervisor, unless otherwise directed by sector or J-3/MOP-TD.

b. Use a memorandum to transfer accountable test material (see fig. 2-5).

(1) When material is temporarily transferred outside the MEPS, the TCO/TST must complete the memorandum reflecting the nomenclature, quantity, and serial number of each item. The original memorandum will accompany the material and a copy will be attached to the most recent inventory. The TCO/TST and a disinterested witness at the receiving agency must sign the memorandum, and return a copy to the originating MEPS immediately. The material must be returned using a memorandum (see fig. 2-5); a signed copy will be returned to the sender using the procedures described earlier in this paragraph.

(2) When material is permanently transferred outside the MEPS, the TCO/TST must complete the memorandum (fig. 2-5) reflecting the nomenclature, quantity, and serial number of each item. The original memorandum will accompany the material and a copy will be attached to the most recent inventory. The TCO/TST and a disinterested witness at the receiving agency must sign the memorandum, and return a copy to the originating MEPS immediately. Once the originating MEPS receives the signed memorandum, the TCO/TST will remove the material from the inventory immediately and print new

USMEPCOM Forms 611-1-1-R-E and 611-1-8-R-E reflecting the date of completion, the current list of items on hand, and the reason for reprinting the inventory in the “comments” section. The TCO/TST must sign USMEPCOM Form 611-1-1-R-E and initial each page of USMEPCOM Form 611-1-8-R-E. The disinterested witness must sign USMEPCOM Form 611-1-1-R-E and initial each page of USMEPCOM Form 611-1-8-R-E. Attach the memorandum to the back of the new inventory. File form under record number 601-222f (see app. A, sec. VI for disposition).

c. Accountable test material will be double wrapped when transferred from a MEPS. Test booklets/cassettes and score keys of the same test item must not be shipped in the same package.

(1) Stamp the inner envelope/container (also addressed) with:

CONTROLLED ITEM (TEST MATERIAL)  
TO BE OPENED BY TEST CONTROL OFFICER ONLY

(2) Label the outer envelope/container with the “from” and “to” addresses. No indication of the contents will be made on the outer container.

(3) Include a copy of the memorandum inside each envelope/container.

d. Federal Express (FedEx) must be used to transfer accountable test material. If FedEx is not available, use the least expensive means while maintaining security parameters established in this regulation.

e. Nonaccountable test material, such as conversion tables and blank answer sheets, will be sent in the least expensive manner.

## **2-7. Ordering test material**

a. J-3/MOP-TD activities automatically distribute newly developed and related material to the MEPS. Replenishment of these materials is the MEPS responsibility.

b. To requisition Assessment of Individual Motivation (AIM) and ASVAB material, not including CAT-ASVAB disks, use the following steps:

(1) Using a web browser, navigate to <http://www.apd.army.mil>.

(2) Click on “Ordering”.

(3) Scroll to “Alternate Ordering Method” at the bottom of page and click on “Re-Supply”.

(4) Enter appropriate account number, ZIP Code, nomenclature, unit of issue, change number (always “000”) and quantity.

(5) Print copy of screen before ordering.

(6) Submit order.

c. To requisition Air Force Officer Qualifying Test (AFOQT) or EDPT material, send a memorandum (see fig. 2-6) to:

Air Force Publications Distribution Center (AFPDC)  
8410 B Kelso Dr.  
Baltimore, MD 21221-3118  
(E-mail: [afpdc-service@pentagon.af.mil](mailto:afpdc-service@pentagon.af.mil))

d. To requisition Alternate Flight Aptitude Selection Test (AFAST), Defense Language Aptitude Battery (DLAB), and Defense Language Proficiency Test (DLPT), send a memorandum/e-mail to:

Education Division (AHRC-PDE/APT)  
U.S. Army Human Resources Command  
200 Stovall Street, Suite 3N17  
Alexandria, VA 22332-0472  
(E-mail: [apt@hoffman.army.mil](mailto:apt@hoffman.army.mil))

e. To requisition AP test send a memorandum to:

Education Division (AHRC-PDE/APT Distribution Center)  
U.S. Army Human Resources Command  
2461 Eisenhower Avenue Suite 803  
Alexandria, VA 22331-0472  
(E-mail: [aptdistro@hoffman.army.mil](mailto:aptdistro@hoffman.army.mil))

f. Repositories and MEPS designated by sector are the only MEPS authorized to order English Comprehension Level Test (ECLT) material. To order ECLT, send a memorandum to:

DLIELC/LECT  
2230 Andrews Avenue  
Lackland AFB, TX 78236-5207

g. Use a memorandum to order CAT-ASVAB disk/CD replacements from J-6/MIT. For a sample format, see fig. 2-7.

h. Immediately upon assumption of duties, and when any information on the memorandum changes, MEPS commanders will provide the following agencies a copy of the TCO/TST test account verification memorandum (see fig. 2-8):

(1) Education Division (AHRC-PDE/APT), U.S. Army Human Resources Command, 200 Stovall Street, Suite 3N17, Alexandria, VA 22332-0472.

(2) Air Force Publications Distribution Center, 8410 B Kelso Dr., Baltimore, MD 21221-3118.

(3) DLIELC/LECT, 2230 Andrews Avenue, Lackland AFB, TX 78236-5207.

## **2-8 Stock level tracking**

The testing section must maintain a 180-day stock of enlistment, student, and special purpose answer sheets, as well as student result sheets. Use a separate Department of the Army (DA) Form 479 (Publication and Blank Form Stock Record Card) (see fig. 2-9 for form instructions) for each form to determine the minimum required stock levels. File card under record number 25-30jj; disposition instructions are in appendix A, section VI.

## **2-9. Reproduction of accountable test material**

Reproduction of accountable test material is prohibited without prior approval of J-3/MOP-TD, through sector.

**2-10. Test/loss compromise (TLC)**

a. The following list describes test material compromise that requires reporting and investigation.

**Note:** This list is not inclusive, it is only provided for guidance.

- (1) Access to test material by unauthorized personnel.
- (2) Discussion of test questions by DOD or OPM personnel with unauthorized personnel.
- (3) Examinee revealing test contents to other individuals.
- (4) Questioning of examinees by anyone for the purpose of gaining knowledge of test contents.
- (5) Development of a local test or practice test which contains actual test material.
- (6) Reproduction of any test materials in whole or in part.
- (7) Removal of test material by an examinee or other unauthorized personnel from the test room.
- (8) Leaving examinees unsupervised during a test session.
- (9) Failure to account for accountable test material at any time.

**Note:** Page 1 of an answer sheet is not considered accountable test material.

- (10) Transfer of test material without proper receipt.
- (11) Destruction or disposition of test material under improper conditions.
- (12) Improper mailing of test material.
- (13) Suspected incidents of training courses or sessions, sponsored by DOD or OPM personnel, using questions from test booklets or emphasizing information known to be covered by the test (e.g., coaching).
- (14) Tampering with any package containing test material.
- (15) Improper storage of test material.
- (16) Access by unauthorized personnel to any safe, secured container, or restricted area containing test material.
- (17) Theft of test material by any individual.
- (18) Use of "crib notes" or unauthorized testing aids.
- (19) Copying all or part of the CAT-ASVAB or USMIRS test scoring software.

b. Report instances of actual test loss or possible test compromise of accountable test material to the MEPS and sector testing section personnel immediately. The MEPS will document the information on USMEPCOM Form 611-1-R-E (ASVAB Test Loss/Compromise Telephone Report) and fax a copy to sector. The form is available in USMEPCOM Electronic Pubs/Forms Library.

c. Upon receipt, the sector testing section personnel will assign a case number. Case numbers are assigned consecutively commencing October 1 of each fiscal year (FY). Case numbers will consist of a two-digit FY identifier, followed by a single letter sector identifier, and a three-digit case number (e.g., 01E001, 01W002).

d. TLCs are either attributed to MEPS or OPM failure to maintain control. Depending upon where the responsibility lies, the investigation will be completed differently.

(1) MEPS loss/compromise.

(a) Once sector is informed and a case number has been assigned, sector will determine whether an investigation is warranted and will appoint the investigating officer. The investigation will be conducted within 15 calendar days of initial notification. The MEPS commander will ensure involved personnel are available for interview purposes.

(b) In any case, conduct an immediate inventory of accountable test material.

(c) The investigation will be forwarded to the sector commander with a courtesy copy delivered to the MEPS commander. Sector and J-3/MOP-TD will review the report for technical validity and ensure any recommendations are sufficiently warranted before closing. Once the investigation is closed by J-3/MOP-TD, a copy of the investigation report will be returned through sector to the MEPS. The MEPS will maintain a copy of the report under record number 601-222a; disposition instructions are in appendix A, section VI. The closure memorandum is required prior to removing missing material from the MEPS accountable test material inventory. The TCO/TST will remove the lost test material from the inventory, and print new USMEPCOM Forms 611-1-1-R-E and 611-1-8-R-E reflecting the date of completion, the current list of items on hand, and the reason for reprinting the inventory in the "comments" section. The TCO/TST must sign USMEPCOM Form 611-1-1-R-E and initial each page of USMEPCOM Form 611-1-8-R-E. Attach a copy of the closure memorandum to the back of the new inventory.

(2) OPM TLC.

(a) OPM will investigate the TLC(s) involving their personnel. J-3/MOP-TD or sector will determine if an investigation is not needed, but this does not preclude OPM from conducting its own review.

(b) The OPM TA will telephonically notify their OPM area coordinator (AC) within 24 hours of an incident. The OPM supervisor will provide immediate telephonic notification of the TLC to the respective MEPS, who in turn, will report the incident to their sector immediately. When the MEPS receives a package from an OPM TA and discovers material missing, the MEPS TCO/TST will immediately contact sector testing section personnel and their OPM AC. Once sector testing section personnel are informed and a case number has been assigned, sector will notify the OPM National Program Office.

(c) The OPM Testing Region office will investigate and forward an investigative report to the respective USMEPCOM sector within 30 working days of the incident. If the OPM Testing Region office requires additional time to complete the investigation, they will provide an interim report to sector within 15 working days of the incident. Sector will endorse and forward the report of investigation to J-3/MOP-TD NLT 45 working days from the date of the incident.

(d) Once the investigation is closed by J-3/MOP-TD, a copy of the investigation report will be returned through sector to the MEPS. The MEPS will maintain a copy of the report under record number 601-222a; disposition instructions are in appendix A, section VI.

**2-11. Non-compromise-related incidents**

a. J-3/MOP-TD requires information regarding any unresolved non-compromise-related testing incident which has (or could have) a negative impact on enlistment testing. Examples include:

- (1) Canceled test sessions.
- (2) Recruiter and/or tester misconduct.
- (3) Examinee disciplinary problems.
- (4) Testing support deficiencies precluding effective administration (for e.g., lack of proctor support).

b. Report a non-compromise-related incident after prior coordination with the Interservice Recruitment Committee (IRC) has been insufficient in rectifying the problem. Under these circumstances, the MEPS commander will originate and forward a report through sector to J-3/MOP-TD. When recruiting personnel are directly involved in the incident, forward information copies of the report to the pertinent MEPS-level recruiting command and to IRC members. The report will include a description of the following information as applicable:

- (1) Location and date.
- (2) Type of session and MEPS/recruiting/OPM personnel involved.
- (3) Circumstances surrounding the incident (narrative description).
- (4) Corrective action(s) taken to preclude further incidents.
- (5) Copy of the applicable IRC minutes.
- (6) Recommendation(s) for consideration by J-3/MOP-TD and recruiting services.

**2-12. TA conflicts of interest**

Both MEPS and OPM TAs are prohibited from administering tests to coworkers, relatives, household members, or close personal friends. If a TA knows such an individual is scheduled to test, he or she must notify the TCO/TST or OPM AC. If such a person appears for testing without the TA's prior knowledge, the TA will not administer the test to the individual and will explain the circumstances to the TCO/TST or OPM AC. In either situation, the TCO/TST or OPM AC will schedule another TA to administer the test to the individual as soon as possible. The MEPS will notify the appropriate service, in writing, with the details of the incident.

**2-13. Prohibited coaching practices**

MEPS and OPM personnel may not use ASVAB tests, locally developed test questions, test aids, or commercial study guides to familiarize applicants or potential applicant with the ASVAB. Applicants may be advised commercial study guides are available; however, commercial study guides will not be maintained in any MEPS or MET site facility, or in the possession of MEPS and OPM personnel for use by applicants. MEPS and OPM personnel will not participate in applicant study preparation. MEPS TAs will report anyone seeking inappropriate testing assistance to the MEPS commander. OPM TAs will report to their OPM AC.

**2-14. Ringers**

a. A ringer is any person taking the ASVAB for another person. Report ringer activity via station advisory report net, also known as STARNET, according to guidance in USMEPCOM Regulation 5-5 (Security, Safety, and Special Programs), paragraph 5-3. OPM TAs report ringer activity through OPM AC to the MEPS. MEPS TCO/TST will notify the appropriate recruiting service with the details of the incident.

b. The test taken must be invalidated. The applicant for which the test was taken is placed in a hold status for 6 months from the date of test, pending investigation by the appropriate recruiting service. If the recruiting service's review indicates no knowledge of the incident and no fault by the applicant awaiting processing, remove the applicant from the hold status and authorize an immediate retest by the MEPS commander.

MEMORANDUM FOR COMMANDER, LOUISVILLE MEPS (ATTN: TESTING SECTION)

SUBJECT: Personnel Authorized Access in Restricted Testing Area

Per USMEPCOM Regulation 611-1, paragraph 2-2c, the following personnel are authorized unescorted access in restricted testing area(s). Others must be escorted by the test control officer or the alternate test control officer.

MAJ Sherri Jones  
CPT John Doe  
ENS Monica Somebody  
1SG Brandi McCutchen  
TSgt Harvey Snelling  
Ms. Arlinda Butler  
Mr. Arnt Lockwood

Testing rooms, other than CAT-ASVAB and BAT, are designated restricted areas only when in use for actual testing. This will allow multipurpose use of the rooms.

This memorandum supersedes memorandum, subject, July 11, 2005.

Jane A. Doe  
LCDR, USN  
Commander

Attachment  
As stated

Figure 2-8. Sample memorandum for verification of (APT) account (sample not to scale)

**Instructions for completing DA Form 479:**

Prepare this form in pencil. List the form and number. Date and unit are not required.

Inventory forms on hand once per quarter. Place inventory date in "Date" block. Enter quantity counted in "Balance on Hand" block. Enter quantity used since last inventory in "Issued" block. Annotate in the "Month established" and "Quantity" blocks each quarter's usage and maintain the last 12 months running usage count. When replacement forms are ordered, annotate the requisition number in the "Requisition" block and the number of forms ordered in the "Due in" block.

When new forms are received, annotate the number in the "Received" block, and add to balance on hand.

Place an asterisk above the two quarters with highest usage. To calculate the 180-day minimum stock level, add the two quarters with the highest usage together. Divide by six to determine average monthly usage. Enter these numbers in the "Editing Information" block. When peak usage quarters change, it will be necessary to reconfigure the 180-day stock level, average monthly usage, and reorder point.

Use the average monthly usage number for timing. For example, the 180-day stock level for USMEPCOM Form 611-1-20-R-E (Special Purpose Test Examination) is 333 forms. The average monthly usage is 56 forms. When new forms are placed on order, it could take 2 months to receive them. When the balance on hand reaches 445 forms or "333+56+56" order new forms so they will arrive before the balance on hand drops below 333. To prevent from ordering forms continuously, but to make sure excess forms are not maintained, it is recommend that MEPSs order enough forms to last approximately 1 year. Indicate stock level, monthly average, and reorder point computations on DA Form 479.

When the DA Form 479 card is filled on one side or on both sides, transpose the last 12 months usage and editing information to the top of a new card to identify required stock levels and average monthly usage. Destroy the old card.

### **Chapter 3**

#### **Enlistment ASVAB Test Administration**

##### **3-1. TA preparation**

TAs must be knowledgeable in the following areas before administering any ASVAB examination: test security and accountability, authorization to test, retest policy, scoring tests, and verifying results according to this regulation and the CAT-ASVAB User's Guide.

##### **3-2. Authorization to test**

a. Personnel authorized to test.

(1) Non-prior service applicants at least 17 years of age. If not 17 years of age or older, the applicant cannot test. If tested by mistake before the age of 17, the test will be suspended for the 17<sup>th</sup> birthday, scanned and added to the applicant's record as invalid for enlistment purposes, and retest eligibility starts from the date of test.

(2) Whenever possible, military personnel (active duty, National Guard, and Reserve) will arrange to take the in-service ASVAB from their service's TCO/TST at a military installation; however, on a case-by-case basis, MEPS commanders may authorize administration of an ASVAB for in-service purposes at their MEPS. The military member must submit a memorandum from their unit commander requesting the MEPS to administer an ASVAB. The memorandum must include the reason for retest, state the member's personnel records indicate eligibility to take the ASVAB, and reflect the address to which the results will be sent. Active duty marines must get permission in writing from the Commandant of the Marine Corps before taking the ASVAB (ATTN: HQ Marine Corps, Marsh Center, Manpower and Reserve Affairs (MPP), 3280 Russell Road, Quantico, VA 22134-5103). Marine Corps Individual Ready Reserve (IRR) members and Marine Corps reservists do not need the Commandant's permission before ASVAB testing at a MEPS. If any military personnel, not including IRR, tests at a MET site and not a MEPS, the test will be invalidated.

**Note:** This paragraph does not pertain to personnel assigned to the MEPS.

(3) Military personnel (active duty, National Guard, and Reserve) who are changing components or services can be administered the ASVAB at the MEPS. These personnel are required to present a completed USMEPCOM Form 680-3A-E to the TA before taking the ASVAB. DD Form 368 (Request for Conditional Release) is required to take the ASVAB.

**Note:** Active duty marines and Marine Corps reservists see (2) above concerning prior permission to test.

**Note:** This paragraph does not pertain to personnel assigned to the MEPS.

(4) Prior service (PS) applicants may test according to guidance in appropriate service directives. Services establish enlistment standards and no minimum AFQT score applies for enlistment processing. The validity period for previous test scores and associated source documentation for PS applicants will be determined by each service. PS applicants do not need a DD Form 368 to take an aptitude test. When PS applicants are retested with an enlistment ASVAB, the results become the score of record.

**Note:** This paragraph does not pertain to personnel assigned to the MEPS.

(5) TAs who need to take the ASVAB must be removed from testing duties and not have access to ASVAB test material for at least 6 months prior to the scheduled ASVAB test. Use the CAT-ASVAB for this test. Waivers of the 6-month rule will be considered on a case-by-case basis for a TA applying for special programs with submission time requirements. Waivers will be requested through sector J-3/MOP-TD.

(6) USMEPCOM personnel who need to take the ASVAB will request a waiver through their chain of command to J-3/MOP-TD.

b. Personnel not authorized to test.

(1) Individuals in a service Delayed Entry Program (DEP) are not authorized to test with the ASVAB except for inquiry into possible testing improprieties. The applicant's score remains valid while in the DEP. However, if the individual is discharged from the DEP, and 2 years have elapsed since the last valid test, the individual no longer has a valid ASVAB score of record and must be tested to continue further processing. If a member in the DEP takes an ASVAB, the test will be invalidated.

(2) Service recruiters (military and civilian) and liaisons are not allowed to take the ASVAB at the MEPS or at a MET site. These members will be referred to their nearest military installation.

(3) An applicant disqualified and on a hold status due to positive drug/alcohol test results is not authorized to ASVAB test until the eligibility date for further processing (removal of hold status) is met. If tested while on medical hold for positive drug/alcohol results, the test will be invalidated.

**3-3. When authorized individuals are allowed to test**

a. Standard retest policy.

(1) The retest policy applies to both enlistment and student testing programs without distinction. A mandatory test session in a high school does not waive this policy.

(2) An applicant who answers at least one ASVAB question is considered to have tested and establishes retest eligibility.

(3) An ASVAB test within 2 years of any previous ASVAB test is a retest (including a student test) and will be counted toward the retest policy.

(4) When retested, a complete ASVAB is administered.

(5) Applicants, who have taken an initial ASVAB, student or enlistment, can retest after 1 calendar month has elapsed (e.g., initial test taken on 2 January, applicant can retest on 2 February).

(6) Applicants who have taken the first retest, whether student or enlistment, can retest after 1 calendar month has elapsed (e.g., initial test taken on 2 January, first retest was taken on 2 February, applicant is eligible for second retest on 2 March). Third and subsequent retests can be administered after 6 calendar months have elapsed from the last test date (e.g., initial test taken 2 January, retest taken 2 February, second retest taken on 2 March, third retest is authorized 2 September).

b. Special considerations.

(1) Retesting with the same version of the ASVAB that was used on any previous test is strictly prohibited for at least 6 months. If an applicant is retested with the same test version within a 6-month period, the retest score will be invalidated and the previous valid test score will stand as score of record. However, if the condition is the result of a MEPS or OPM TA procedural or administrative error, the MEPS commander may authorize an immediate retest using a different ASVAB version.

(2) Applicants dismissed for cheating or disruptive behavior will have their test invalidated, and are not authorized to retest for 6 months from the date of the invalid test.

(3) MEPS commanders will not authorize immediate retests simply for the purpose of improving an examinee's scores. MEPS commanders may authorize an immediate retest if the examinee's prior test results were obtained under one the following conditions:

(a) If MEPS or OPM personnel made procedural and/or administrative errors resulting in test invalidation (e.g., retests taken on the same test version if ability exists to check before test, etc.).

(b) If the examinee's answer sheet was accidentally destroyed or lost before scanning.

(c) If the examinee's prior test scores are believed to be unrepresentative of the applicant's ability. Examples include test session disruption (e.g., fire evacuation, etc.), test administration error (e.g., incorrect subtest timing), or environmental problems (e.g., air conditioning failure, excessive noise, etc.).

(4) MEPS commanders may mandate immediate retests when reasonable cause exists to suspect that improper means were employed to influence or increase test scores. If any testing impropriety is discovered as a result of the mandatory retesting and/or an interview, associated test results for that applicant will be invalid, and the individual will be prohibited from voluntary retesting for 6 months.

(5) Applicants excused from test sessions due to distress may be authorized an immediate retest by the MEPS commander (see par. 3-7g(1)).

(6) When the MEPS commander orders an immediate retest, record the immediate retest authorization on an MFR signed by the MEPS commander. The MFR will be placed in the applicant's packet. Immediate retests may take place at a MET site or MEPS.

c. Exceptions to retest policy.

(1) Each recruiting service and HQ USMEPCOM has a Manpower Accession Policy Working Group (MAPWG) representative appointed to address special situations dealing with enlistment testing policy. At any time, the MAPWG can approve exceptions to current testing policy based on individual cases.

(2) Recruiting service personnel request waivers to testing policy, through their service's chain of command to their MAPWG representative. This representative will interface with J-3/MOP-TD and make a determination. If the exception is approved, J-3/MOP-TD will notify sector and the MEPS of the required action.

d. Unless otherwise stated, exceptions to testing policy granted by J-3/MOP-TD are valid for 1 year from the date of approval. Submit a new request through sector to J-3/MOP-TD. Keep written approval of exceptions from J-3/MOP-TD under record number 100; disposition instructions are in appendix A, section VI.

### **3-4. Request for examination**

a. Non-PS applicants, PS applicants, and military personnel changing components must provide a completed USMEPCOM Form 680-3A-E to the TA before examination.

b. Written authorization will be provided, or on file, before the examination for military personnel not changing components (excluding Marine Corps IRR) and USMEPCOM personnel authorized immediate retests by the MEPS commander or MAPWG. In addition, active duty marines and Marine Corps reservists, other than those applying for officer programs, will provide the memorandum from the Commandant of the Marine Corps before taking the ASVAB.

**3-5. ASVAB test facility requirements during test sessions**

- a. A clock must be visible to applicants (paper and pencil testing).
- b. A sign stating “Subtest (number) will end at (time)” will be posted near the clock (paper and pencil testing). A permanent blackboard is sufficient for this requirement.
- c. A sign stating “Test in session—will end (time)” must be posted at each entrance to the test room.
- d. The test room must be free from noise and visual distractions and properly illuminated.
- e. Each seat must afford the tester an appropriate writing surface for scratch paper.
- f. An audible electronic timer will be used for timing the various subtests (paper and pencil testing).

**3-6. Applicant/TA ratio**

**a. MEPS.** During enlistment testing in a MEPS, the maximum applicant/TA ratio for CAT-ASVAB is 40:1. If the ratio exceeds 40:1 at any time in a MEPS, a second TA is required.

**b. MET site.** During enlistment testing at a MET site, the maximum applicant/TA ratio is 25:1. When the seating capacity at a MET site exceeds 25, MEPS commanders are authorized to waive the ratio to 30:1, provided adequate security and integrity of the test can be maintained. The maximum number of applicants at a MET site will not exceed 30.

**3-7. General enlistment testing direction**

- a. OPM TAs will not conduct ASVAB tests in the MEPS.
- b. The TA will remain in the test room when applicants are present.
- c. Only authorized MEPS personnel are allowed access to the CAT-ASVAB testing room. Authorized MEPS and OPM personnel are the only members permitted access to a MET site testing room during test administration and scoring. Recruiters/liaisons are not allowed in testing rooms at any time.
- d. Personnel taking the ASVAB in a MEPS must be given the CAT-ASVAB unless:
  - (1) He or she has taken all three versions of CAT-ASVAB within 6 months from the test date.
  - (2) He or she is documented as color blind.
  - (3) The CAT-ASVAB system is completely inoperable.
- e. TAs will not score tests or perform any non-related testing activities during the session.
- f. Deviations from specific instructions in test administration manuals are prohibited. Read directions verbatim, in English, while standing. TAs must ensure applicants ask and respond to questions in English.
- g. Applicants may be excused from a test session for one of the following four reasons:
  - (1) **Distress (e.g., sick, nervous, fatigued).** Be alert for applicants who show signs of distress, and when appropriate, excuse the applicant from the test session. If an applicant is excused, collect

testing material, including scratch paper, before the applicant departs the room. The TA must note the time and reason of dismissal on USMEPCOM Form 611-1-7-R-E (Aptitude Testing Processing List). The MEPS testing section personnel will notify the recruiting service of the action taken. The MEPS commander may authorize an immediate retest for the applicant, and when immediately retested for this reason, the original test results will be discarded and not counted as a test taken. The form may be obtained from USMEPCOM Electronic Pubs/Forms Library and reproduced on 8 ½- by 11-inch plain white bond paper.

**(2) Cheating.** Ensure applicants are working independently and not cheating. Applicants will have on their desks only those materials provided by the TA when taking the test. Use of unauthorized assistance such as cameras, cellular telephones, or any other personal electronic devices are prohibited within any testing area. Applicants detected receiving or using unauthorized assistance (crib sheets, talking during the test, gazing onto a neighbor's test, etc.), or using other devious means (e.g., working on a portion of the test other than the one being administered or using a calculator, slide rule, cellular telephone, electronic translator, or other mechanical device) will not be allowed to continue to test; or, if testing is complete, their test results will be invalidated. Without causing disruption to the test session, excuse applicants caught cheating after collecting test material, to include scratch paper. The TA must note the time and reason of dismissal on USMEPCOM Form 611-1-7-R-E. The MEPS testing section personnel will notify the recruiting service of the action taken. The applicant's test will be invalidated, and the applicant will not be allowed to retest until 6 months from the test date. Every succeeding retest must be taken at the MEPS.

**(3) Disruption.** Dismiss any applicant who becomes disruptive during the testing session. The TA must collect test material, to include scratch paper, and note the time and reason of dismissal on USMEPCOM Form 611-1-7-R-E. The MEPS testing section personnel will notify the recruiting service of the action taken. The applicant's test will be invalidated, and the applicant will not be allowed to retest until 6 months from the test date. The MEPS commander may authorize immediate retests for the other applicants.

**(4) Other necessities (e.g., restroom).** When it is necessary to excuse an applicant from a test session, collect the applicant's test material before he or she leaves the test room. To ensure the applicant does not return to work on a previous part of the paper and pencil examination, the TA will circle the item number of the last question answered on the answer sheet with a "RED" felt-tip marker. The applicant must wait until the beginning of the next subtest to proceed upon return. Make every effort to prevent examinees from leaving during a subtest. In a CAT-ASVAB session, refer to CAT-ASVAB User's Guide.

h. Applicants who abandon a test after answering at least one question are considered to have been tested. The TA will collect test material, to include scratch paper, and note the time and reason of departure on USMEPCOM Form 611-1-7-R-E. The applicant's test will be invalidated, and the MEPS testing section personnel will notify the recruiting service of the action taken. Follow the normal retest policy for test eligibility.

i. Breaks will not be permitted during administration of the ASVAB. Administrative time greater than 7 minutes between subtests must be documented on USMEPCOM Form 611-1-7-R-E. The MEPS commander will determine if the circumstances of the delay warrant invalidating the test session.

j. The TCO/TST will prepare and annually review contingency plans for conducting MEPS and OPM test sessions in the unplanned absence of the assigned TA. Ensure recruiters are notified in advance when a session is canceled.

**3-8. Paper and pencil test administration**

a. The TA will ensure he or she has enough test booklets in his or her possession for 30 applicants, copies of the Privacy Act Statement (see app. C), and the materials required per the applicable manual for administration.

b. Applicants provide the TA with a completed USMEPCOM Form 680-3A-E. Once reviewed for accuracy, the applicant must sign block 23 in the TA's presence. In an attempt to prevent ringer activity, the TA will verify the signature against the signatures in blocks 25, 26, and 27.

c. The TA must be presented with a photographic identification card from the applicant. If no photographic identification card is available, the TA will ink the applicant's right thumb to obtain a thumbprint in the appropriate block on USMEPCOM Form 680-3A-E.

d. The TA will complete a USMEPCOM Form 611-1-7-R-E as applicants arrive to test. This form is used to record information concerning test sessions. The MEPS TCO/TST will review the form to ensure no unusual test version patterns develop. Unverified scores do not need to be annotated on the form.

e. The TA will ensure available test versions are used and distributed equally among examinees. Seat applicants in a fashion where they cannot readily observe another applicant's answer sheet. Applicants seated side by side, behind, or in front of other personnel, will have alternate versions of the test.

f. The TA must maintain visual control of applicants once they have been checked in for testing. If an applicant departs the room for any reason before the session starting, the TA must again verify the individual's status via photographic identification card or obtain a right thumbprint.

g. Conduct the test session according to guidance in the appropriate manual for administration.

h. Upon completion of the test, the TA will--

(1) Instruct applicants to remain quietly in their seats.

(2) Collect materials, including scratch paper, directly from each applicant.

(3) Inventory test booklets and answer sheets (to include a quick page check (an inspection of the overlapping black lines on the edge of the pages)).

(4) Release applicants from the test room after test material has been accounted for.

(5) Score tests and generate a USMEPCOM Form 611-1-2-R-E (Unverified Test Scores (Single Applicant)) for those applicants that provided an envelope. The form must be sealed in the envelope before release to the applicant. Instruct the applicant to deliver the sealed envelope to their recruiter.

(6) Conduct a thorough page-by-page check of test booklets once the TA returns to the MEPS (MEPS personnel), or when applicants have departed (OPM TA).

(7) Review test booklets for serviceability. Erase stray marks from test booklets. Destroy booklets that are worn or contain marks that cannot be completely erased. Test booklets will not be repaired in any fashion (e.g., stapling, taping, etc.).

(8) Secure accountable test material according to paragraph 2-3.

i. Upon receipt of the test package, MEPS TAs will--

(1) Prior to hand or automated scoring, review answer sheets to ensure personal information (i.e., applicant's name and SSN) are entered correctly on each page of the answer form. Correct errors between the answer sheet and USMEPCOM Form 680-3A-E according to the instructions below. If appropriate, test scorers can make minor administrative changes to the answer sheet, but will not make changes to the applicant's subtest item responses, to include darkening in responses. Do not write test scores on answer sheets.

(a) USMEPCOM Form 680-3A-E suspect or invalid SSN - answer sheet SSN coded incorrectly. When an answer sheet is incorrectly coded, the scorer will verify SSN against the SSN on USMEPCOM Form 680-3A-E. Upon confirmation that the SSN coded on the answer sheet is incorrect, the scorer will correct the coded SSN and score the answer sheet.

(b) USMEPCOM Form 680-3A-E suspect or invalid SSN - SSN mismatch between answer sheet and USMEPCOM Form 680-3A-E (SSN on USMEPCOM Form 680-3A-E is valid). The MEPS TCO/TST will notify the recruiting service of the discrepancy, create a valid test record using the SSN on USMEPCOM Form 680-3A-E, and create an "N" status record with the reason "SSN Discrepancy on Answer Sheet." Remove the "N" status when the SSN has been verified, and correct SSN if needed.

(c) USMEPCOM Form 680-3A-E suspect or invalid SSN - SSN on USMEPCOM Form 680-3A-E block 1 is incomplete or out of range (number has not been issued by Social Security Administration), but the answer sheet has a complete valid SSN. The MEPS TCO/TST will notify the recruiting service of the discrepancy, create a valid test record with the SSN on the answer sheet, and create a "N" status record with the reason "SSN Discrepancy on USMEPCOM Form 680-3A-E." Remove the "N" status when the SSN has been verified, and correct SSN if needed.

(d) USMEPCOM Form 680-3A-E suspect or invalid SSN - SSNs on answer sheet and block 1 of USMEPCOM Form 680-3A-E are incomplete or out of range; however, the SSN recorded in block 25 of USMEPCOM Form 680-3A-E is a complete valid SSN. The MEPS TCO/TST will notify the recruiting service of the discrepancy, create an invalid test record with the SSN in block 25 of the 680-3A-E, and create an "N" status record with the reason "SSN Error on USMEPCOM Form 680-3A-E and Answer Sheet." Remove the "N" status when the SSN has been verified, validate the test, and correct SSN if needed.

(e) USMEPCOM Form 680-3A-E suspect or invalid SSN - SSNs on USMEPCOM Form 680-3A-E and answer sheets are either incomplete or out of range. The MEPS testing personnel will attach USMEPCOM Form 680-3A-E to the answer sheet, do not create a test record, and record under 601-222d; disposition instructions are in appendix A, section VI.

(2) Notify the recruiting service of the discrepancy. MEPS testing personnel will create a valid test record if the discrepancy is resolved within 30 days from the date of test. If not resolved within 30 days, the MEPS testing section personnel will destroy USMEPCOM Form 680-3A-E and answer sheet.

(3) Conduct a records check using the USMIRS to ensure the applicant's record, if any, reflects the most recent data.

(4) Add/update personal data as required.

**Note:** If incomplete or incorrect data is discovered (other than SSN) after the examination, the MEPS TA will create a valid test record. In addition, he or she will create a "N" status record with the reason "Incomplete (or Unverified) Personal Data," circle the missing/incorrect items on USMEPCOM Form 680-3A-E with a "RED" felt-tip marker and add the statement "Incomplete (or Unverified) Personal Data" on top of USMEPCOM Form 680-3A-E, and notify the recruiting service of the discrepancy. Once

the information is available, it will be annotated on the form. The statement on the form will be lined out, the "N" status removed, and the necessary information entered.

(5) Use an optical mark reader (OMR) to score ASVAB answer sheets for record purposes. When the OMR is inoperative, or the test version cannot be scored by the OMR, use manual scoring (Testing2000) as the score of record.

(6) Review and merge test data. Compare USMEPCOM PCN 680-3ADP (Processee/Enlistee Record) and USMEPCOM Form 611-1-7-R-E to ensure accuracy of merged test results. After reviewing, initial the USMEPCOM Form 611-1-7-R-E and file under record number 601-222d; disposition instructions are in appendix A, section VI.

(7) Initial and date the USMIRS coding block of USMEPCOM Form 680-3A-E to indicate a files check was accomplished and the scores have been verified and are ready for release to the recruiting service.

(8) Build applicant's packet, or add to applicant's packet if one already exists, with the following documents:

(a) USMEPCOM Forms 680-3A-E used for testing.

(b) USMEPCOM PCN 680-3ADP printed after the personal and/or test data has been merged. Retain the most recent USMEPCOM PCN 680-3ADP in the applicant's packet.

(9) Deliver the applicant's packet to the MEPS files room. Handle any further activity concerning the packet according to guidance in USMEPCOM Regulation 601-23 (Enlistment Processing).

j. The MEPS TCO/TST will inform the OPM service center supervisor when a TA error affects test validity. If the entire session is invalidated due to an OPM error, USMEPCOM is not responsible for payment (see USMEPCOM/OPM MOU, subject: Administration of Department of Defense (DOD) Armed Services Vocational Aptitude Battery (ASVAB) by the Office of Personnel Management (OPM)).

k. Completed answer sheets will be maintained under record number 601-222d; disposition instructions are in appendix A, section VI.

### **3-9. CAT-ASVAB test administration**

a. The TA will conduct the CAT-ASVAB session using the CAT-ASVAB User's Guide verbatim. At a minimum, one form load CD, one master data disk, and one examinee terminal data disk for every examinee terminal must be taken to each session.

b. Applicant will provide the TA with a completed USMEPCOM Form 680-3A-E. Once reviewed for accuracy, the applicant will sign block 23 in the TA's presence. In an attempt to prevent ringer activity, the TA will verify the signature against the signatures in blocks 25, 26, and 27.

c. The applicant will provide the TA a photographic identification card. If no photographic identification card is available, the TA will ink the applicant's right thumb to obtain a thumbprint in the appropriate block on USMEPCOM Form 680-3A-E.

d. The TA must maintain visual control of applicants checked in for testing. If an applicant departs the area for any reason during the session, the TA must again verify the individual's status via photographic identification card or obtain a right thumbprint.

e. The TA will brief applicants taking the test. This may be done orally or in writing. See figures 3-1 and 3-2 for sample briefs. Each MEPS may modify to emphasize unique concerns.

f. Unless projected for testing and a records check has been conducted using USMIRS, a records check will be accomplished prior to the applicant test to review the applicant's eligibility to test and the previous versions used, if any. Checking USMEPCOM Form 680-3A-E or asking the applicant whether he or she was previously tested is not adequate for this purpose.

g. During test administration and/or before committing test data, the TA will add to or update personal data as required to the applicant's record.

h. As tests are completed, the TA will:

(1) Collect scratch paper directly from the applicant.

(2) Release applicant from the test room only after his or her test material has been accounted for.

(3) Generate a USMEPCOM Form 611-1-2-R-E for those applicants that provided an envelope. Seal the form in the envelope before releasing to the applicant. Instruct the applicant to deliver the sealed envelope to their recruiter.

i. Once the test session is completed, the TA will--

(1) Inventory CAT-ASVAB disks removed to ensure accountability.

(2) Ensure the TA station and all examinee terminal stations are powered down.

**Note:** The file server will remain on at all times (excluding MET sites).

(3) Secure accountable test material according to paragraph 2-3.

(4) Review and merge test data. Compare USMEPCOM PCN 680-3ADP and USMEPCOM Form 611-1-7-R-E to ensure accuracy of merged test results. After reviewing, initial USMEPCOM Form 611-1-7-R-E and file under record number 601-222d; disposition instructions are in appendix A, section VI.

(5) Initial and date the USMIRS coding block of USMEPCOM Form 680-3A-E to indicate a files check was accomplished and the scores have been verified and are ready for release to the recruiting service.

(6) Build the applicant's packet, or add to applicant's packet if one already exists, with the following documents:

(a) USMEPCOM Form 680-3A-E used for testing. USMEPCOM Forms 680-3A-E used for testing will be retained in the applicant's packet.

(b) USMEPCOM PCN 680-3ADP printed after the personal and/or test data has been merged. Retain the most recent USMEPCOM PCN 680-3ADP in the applicant's packet.

(7) Deliver the applicant's packet to the MEPS files room. Handle any further activity concerning the packet according to guidance in USMEPCOM Regulation 601-23.

### **3-10. Test results**

a. Do not release fully verified test results directly to applicants.

b. Provide results from in-house tests to the recruiting services the first workday following the test. If local circumstances dictate a longer timeframe, notify the IRC and sector.

c. Provide results from MET site tests to the recruiting services within 72 hours from the date of test. Do not include Saturday, Sunday, or weekday holidays in determining the 72 hours. If local circumstances dictate a longer timeframe, notify the IRC and sector.

d. When applicants are using student test results to process for enlistment, MEPS test coordinator may release the student test scores if the applicant (student at the time) was in the 11th grade or higher at the time of testing; the applicant is at least 17 years of age and the date of test is within 2 years; and after receiving a completed USMEPCOM Form 680-3A-E from the recruiting service. USMEPCOM Form 680-3A-E must be signed to indicate the applicant's consent to release the scores in the following instances:

(1) The school specifically requested the scores not be released to the recruiting services (option 8).

(2) The specific date of release of the recruiting service copies has not arrived (options 1-6).

e. To release the scores for student tests, conduct a student test query in USMIRS utilizing name, SSN, date of birth, and school. Merge student test scores into USMIRS. Merge student tests coded option 7 into USMIRS as invalid tests.

### **3-11. Manual scoring**

a. The MEPS testing section personnel will manually score a test when the OMR is inoperative, answer sheets are damaged, or during the weekly scoring analysis. The process used to manually score a test is the same for all. The process is as follows:

(1) Use the Manual Item Entry Screen module of Testing2000.

(2) Use a scorer and a verifier when manually scoring.

**Note:** Scorer and verifier will not be the same individual.

(3) The scorer will input the answers from the appropriate test answer sheet(s) into the Manual Item Entry Screen of Testing2000.

(4) The verifier will check the scorer's manual inputs for accuracy.

(5) After verification, the scorer will submit the scores and print the Accession Data Application Form.

(6) Attach a MFR signed by both scorer and verifier to the Accession Data Application Form.

b. Distribution of MFR and Accession Data Application Form.

(1) Place original in the applicant's packet.

(2) File the second copy with the answer sheet under record number 601-222d (app. A, sec. VI). Destroy after 1 year.

(3) Forward the third copy to the recruiting service liaison.

**3-12. Weekly scoring analysis**

a. To check the accuracy of the OMR equipment and conversion software, TAs will complete a weekly scoring analysis as follows:

- (1) Manually score one enlistment test once per week.
- (2) Conduct the manual score, using the Manual Item Entry Screen of Testing2000.
- (3) Using the USMIRS personal computer (PC), run answer sheets through the OMR.
- (4) Merge personal information from USMEPCOM Form 680-3A-E in USMIRS and print the results (USMEPCOM PCN 680-3ADP).
- (5) Compare USMEPCOM PCN 680-3ADP with the Standard Score Verification window of Testing2000 to ensure no scoring errors have occurred.
- (6) If no errors, merge personal information from the remaining USMEPCOM Forms 680-3A-E.
- (7) If the manual score differs from the OMR, manually score the answer sheets again using Testing2000.
- (8) If an error is detected and it has been determined to be a hardware problem (i.e., USMIRS PC or OMR), correct it before merging the remaining tests (recalibrate, technician, etc.). To validate test score accuracy, hand score answer sheets scored by the OMR since the last accurate scoring analysis according to paragraph 3-11.
- (9) There may be instances when the manual score differs from the system's USMIRS generated score and no error has been made on the part of the TA or hardware. Normally, this is caused by light or stray marks on the answer sheet caused by the applicant. In these instances, the OMR is considered the score of record. No correction is necessary.

b. Each time the scoring analysis is conducted, record the following information on an MFR signed by the TCO/TST:

- (1) Date and time USMIRS was used.
- (2) Number of answer sheets scored in the batch used for scoring analysis,(i.e., MET site packet).
- (3) Name and SSN of applicant whose answer sheets were used for scoring analysis.
- (4) Errors found, if any, to include:
  - (a) Who or what was responsible (TA during manual score procedures, USMIRS PC, or OMR).
  - (b) Corrective action taken to preclude recurrence.

c. Once the scoring analysis is completed, staple the copy of USMEPCOM PCN 680-3ADP printout, ASVAB answer sheet, and MFR together and maintain under record number 601-222d.

**Note:** Answer sheets for test administered to Air Force personnel will be forwarded according to AR 601-270 (Military Entrance Processing Station (MEPS)).

**3-13. Backup procedures for computer downtime**

When the USMIRS or OMR is inoperative for more than 3 consecutive days, MEPS commanders may authorize travel to a neighboring MEPS for the purpose of scoring enlistment ASVAB tests. Coordinate travel with sector and the assisting MEPS. Include detailed procedures in the testing SOP for handling USMIRS and OMR downtime. File SOP under record number 100; disposition instructions are in appendix A, section VI.

Welcome, I am (give your name), and I will be administering your test today.

First of all, has anyone here taken the Armed Services Vocational Aptitude Battery at anytime in the past, either in a high school or another testing site, and has not indicated this on USMEPCOM Form 680-3A-E you provided? It is extremely important to identify this because your test will be checked against a nationwide computer file for Armed Forces applicants. If it is discovered that you previously tested, but did not tell us, the results from today's test may not be valid for enlistment.

*If anyone raises their hand, check their USMEPCOM Form 680-3A-E to ensure they have marked the retest box and entered the previous forms.*

It is important that you are physically fit to take this test. Is there anybody here that doesn't feel well enough to take the examination?

*Remove them from the session group, inform the service (if available), and indicate the reason for removal on USMEPCOM Form 680-3A-E.*

The test you are about to take is administered by computer. Instructions for taking the test are on the computer, and the guidelines are very easy to follow. If you need assistance during any part of the test, press the red "HELP" key, raise your hand, and I'll assist you.

Cellular telephones (and similar communication devices), coats, jackets, and bags will be left in the CAT-ASVAB waiting room.

The use of cellular telephones, calculators, crib sheets, or other devices designed to assist in testing are not permitted. Pagers must be turned off while taking the test. No talking is allowed while in the testing room. Use the scratch paper and pencil on the side of your computer for any figuring you need to do while taking the test. If you need more paper or another pencil, press the red "HELP" key and then raise your hand.

Do not touch any other keys except for the letter choices, the red "HELP" key or the "ENTER" bar. Be careful not to kick the computer under the table.

After completing the examination, give your scratch paper to me and then you are released. If you are staying at the hotel, wait at the front desk for transportation.

Does anyone have any questions?

*Escort them in CAT-ASVAB room and get them started.*

On behalf of Commander John Doe, welcome to Chicago Military Entrance Processing Station.

First of all, have any of you taken the Armed Services Vocational Aptitude Battery at anytime in the past, either high school or another testing site, and have not indicated this on USMEPCOM Form 680-3A-E you provided? If you have, this must be identified on USMEPCOM Form 680-3A-E that you provided the test administrator, or stated to him or her at this time. It is extremely important to identify this because your test will be checked against a nationwide computer file for Armed Forces applicants. If it is discovered that you previously tested, but did not tell us, the results from today's test may not be valid for enlistment.

It is important that you are physically fit to take this test. Please let me know now if you do not feel well enough to take the examination.

The test you are about to take is administered by computer. Instructions for taking the test are on the computer, and the guidelines are very easy to follow. If you need assistance during any part of the test, press the red "HELP" key, raise your hand, and I'll assist you.

Cellular telephones (and similar communication devices), coats, jackets, and bags will be left in the CAT-ASVAB waiting room.

The use of cellular telephones, calculators, crib sheets, or other devices designed to assist in testing are not permitted. Pagers must be turned off while taking the test. No talking is allowed while in the testing room. Use the scratch paper and pencil on the side of your computer for any figuring you need to do while taking the test. If you need more paper or another pencil, press the red "HELP" key and then raise your hand.

Do not touch any other keys except for the letter choices, the red "HELP" key or the "ENTER" bar. Be careful not to kick the computer under the table.

After completing the examination, give your scratch paper to me and then you are released. If you are staying at the hotel, wait at the front desk for transportation.

If you have any questions, please direct them to the test administrator before proceeding to the test room.

---

**Figure 3-2. Sample of a written CAT-ASVAB briefing**

## **Chapter 4 MET Sites**

### **4-1. Purpose**

a. MEPS will provide additional testing service by establishing MET sites to conduct enlistment testing at locations remote from the MEPS. Testing at MET sites will normally be provided by OPM.

b. When necessary, the IRC will determine MET site seat allocations in conjunction with the MEPS commander. The IRC will base allocation on the recruiting service, past testing performances, and processing quotas. The MEPS testing section personnel will notify sector testing section personnel if any applicant is turned away due to lack of seating.

### **4-2. Facilities**

a. Conduct MET site testing at no additional facilities cost to the Government (e.g., Government facilities). The IRC will share responsibility for locating and coordinating MET sites.

b. Required standards for MET site test room facilities, equipment, and conditions are described in paragraph 3-5 of this regulation. Coordinate deviation from the standards through sector.

c. MEPS commanders are responsible for resources required to administer the ASVAB at MET sites. When MET site test rooms do not have adequate desks or tables for testers, MEPS commanders will evaluate the site to determine if furniture procurement or relocation to another site is warranted. If MEPS commanders determine the purchase of desks or tables is justified, coordinate through sector to HQ USMEPCOM J-3/MOP-TD. Include expenditures for desks or tables in the MEPS annual budget.

d. MEPS commanders have the authority to open, close, or relocate MET sites to effectively manage their enlistment testing program. Before opening or closing a MET site or adding/reducing sessions, the MEPS commander will--

(1) Coordinate with the IRC.

(2) Coordinate with the OPM Testing Region at least 45 days before the scheduled adjustment.

(3) Document the MET site opening, closing, or relocation by memorandum and USMEPCOM Form 611-1-18-R-E (Military Entrance Test Site Update Sheet).

(a) Establish a MET site code according to guidance in appendix D.

(b) Forward a copy of USMEPCOM Form 611-1-18-R-E through sector to: HQ USMEPCOM, ATTN: J-3/MOP-TD.

e. MEPS commanders will authorize storage of accountable test material at a MET site by memorandum. Keep a copy of the memorandum on file in the testing section under record number 1e; disposition instructions are in appendix A, section VI. When possible, limit access to the testing room to testing personnel only. If this is not feasible, limit key access to supervisory and maintenance personnel (National Guard Armory and Reserve Centers).

f. MEPS commanders will maintain computer equipment, if applicable, on the MEPS supply inventory. The MEPS will conduct an annual site visit to perform an annual inventory. During this visit, review USMEPCOM Form 611-1-19-R-E (MET Site Accountability Checklist for Test Administrators).

Verify serial numbers against monthly check sheets. Retain under record number 11-7a; disposition instructions are in appendix A, section VI.

g. MEPS commanders will ensure MET sites are inspected before the first test session. Subsequent reviews will be completed within 18 months from the previous review date. MET site inspectors will—

(1) Use USMEPCOM Form 611-1-14-R-E (MET Site/OPM TA Review) to document the inspection. Retain the last one under record number 11-7a; disposition instructions are in appendix A, section VI.

(2) Document on USMEPCOM Form 611-1-14-R-E, page 1, the address and room number/name of the MET site if accountable test material is stored in the MET site. If material is stored in the OPM TA's home, the TA's home address will not be indicated due to the Privacy Act.

(3) Annotate corrective action for discrepancies on page 2 of USMEPCOM Form 611-1-14-R-E.

#### **4-3. General testing direction**

a. See chapter 3 for test administration guidelines.

b. Upon completion of every test session, the TA will conduct an inventory of the material to ensure no materials are broken or missing. USMEPCOM Form 611-1-19-R-E will be initialed and faxed to the MEPS testing section and the OPM AC on a monthly basis. Report any broken or missing equipment to the MEPS and OPM AC immediately. The completed USMEPCOM Form 611-1-19-R-E will be maintained for under record number 710-2c; disposition instruction are in appendix A, section VI.

c. When MET site packets are lost:

(1) The applicant will be allowed to retest at his or her convenience as an automatic exception to the retest policy (see par. 3-3b(3)(b)).

(2) If the first packet is found, the scores may be used for enlistment unless the packet appears to have been tampered with.

(3) If the packet is found after the applicant has been processed at the MEPS, destroy the answer sheets without scoring them.

#### **4-4. MET site efficiency**

a. MEPS will monitor the MET site testing program for cost efficiency and effectiveness. Base efficiency determinations on savings in applicant meals, travel, and lodging that result from testing at a MET site rather than the MEPS using USMEPCOM Form 611-1-6-R-E (MET Site Cost Analysis). For instructions on how to complete USMEPCOM Form 611-1-6-R-E, see appendix E. File form under record number 601; disposition instructions are in appendix A, section VI. Form may be obtained from USMEPCOM Electronic Pubs/Forms Library and reproduced on 8 1/2- by 11-inch plain white bond paper.

b. MEPS testing section personnel will review each MET site usage quarterly. If a site is ear-marked as not efficient (averages less than five testers per session over 6-month period and is not cost effective in comparison to testing at the MEPS), the MEPS will interface with sector and develop a plan of action. Suggested adjustments include changing the time, day, and/or week of the test. MEPS must discuss the proposed plan with the IRC and the local OPM Testing Region. Place a low usage site on probation for 6 months. If usage does not increase, take appropriate action.

#### 4-5. OPM

a. OPM TAs are hired to conduct ASVAB testing at MET sites and schools. Each MEPS deals directly with the appropriate OPM Testing Region to ensure coverage of required test sessions, and to ensure each OPM TA is qualified in conducting ASVAB test administration. The MEPS must complete OPM TA performance reviews at intervals prescribed below. Reviews may be in conjunction with the test site inspection. Forward a copy of the OPM TA review to the respective OPM Testing Region. Annotate corrective action taken on USMEPCOM Form 611-1-14-R-E.

##### (1) Newly hired permanent OPM TAs.

(a) A MEPS representative will observe and review newly assigned OPM TAs at both an enlistment and student session, if applicable, within 6 months of their first test session. Use USMEPCOM Form 611-1-14-R-E to document the review. Retain the two initial reviews under record number 11-7a; disposition instructions are in appendix A, section VI.

(b) Subsequent reviews must be completed within 18 months of the previous review date at a MET site or student session, and be documented using USMEPCOM Form 611-1-14-R-E. Retain the last review under record number 11-7a; disposition instructions are in appendix A, section VI.

(2) **Substitute OPM TAs.** MEPS representative will review permanent OPM TAs only; OPM will evaluate substitute TAs.

(3) **Random or unannounced reviews.** MEPS representatives may conduct random or unannounced reviews of OPM TAs according to USMEPCOM/OPM MOU.

b. MEPS testing section personnel will handle problems encountered with OPM at the regional level; however, report issues that cannot be resolved to sector for coordination with the OPM National Program Office.

c. At the beginning of each FY, MEPS are allocated a specific number of OPM test sessions for enlistment and student testing, based on usage from the previous FY. Sector testing section personnel will monitor OPM test session usage and make session adjustments between MEPS as needed. Sector testing section personnel will send J-3/MOP-TD a monthly report identifying the number of actual OPM sessions used throughout the FY. Major differences between allocations and usage will be analyzed by J-3/MOP-TD. The monies allocated for OPM sessions are to be used for OPM TA sessions (enlistment and student) only. Session monies not used will be turned in through sector to J-3/MOP-TD.

#### 4-6. No-show sessions

A no-show session occurs when an applicant does not appear for a test session. Despite an OPM TA arriving for the session as planned, the MEPS will not be billed for a no-show session. If no-shows are a problem, consider having recruiters project the number of applicants by 1400 the day previous to the scheduled test session. Before implementing this policy, review the situation with the IRC. If there are no projections, cancel the test session and notify OPM. If no-show sessions continue at a MET site, analyze the situation and take appropriate action in conjunction with the IRC and OPM.

## **Chapter 5**

### **Special Purpose Test Administration**

#### **5-1. TA preparation**

TAs must be knowledgeable in the following areas before administering any special purpose test examination: Test security and accountability, authorization to test, retest policy, scoring tests, and verifying results according to this regulation and the applicable manual for administration.

#### **5-2. Purpose**

a. Special purpose tests are administered when necessary to determine qualifications of applicants for specific occupational specialties.

b. MEPS testing section personnel will establish daily access to the most common special purpose tests, provide special testing time to the IRC, and affect the planning process so the services can schedule their applicants in advance. Special purpose testing will not interfere with ASVAB testing.

c. Special purpose testing at locations other than the MEPS is not authorized (this excludes special purpose testing conducted by the Services overseas). Under no circumstances will OPM administer special purpose tests.

d. MEPS will not enter into agreements to conduct special purpose tests not authorized by J-3/MOP-TD. MEPS testing section personnel are authorized to conduct only those special purpose tests listed in paragraph 5-7 below.

e. When the services administer a special purpose test, they will procure their own test materials from their TCOs and provide their own testing facility. In addition, results of special purpose tests administered by the services will not be entered into USMIRS, with the exception of those tests administered at overseas test sites. Special purpose tests conducted by overseas TCOs are processed through New York MEPS and Honolulu MEPS for their assigned area of responsibility. These two MEPS are required to enter scores from special purpose tests conducted by overseas TCOs in the USMIRS.

f. Sectors will designate no more than three MEPS to act as repositories for the DLPTs not frequently utilized, and the ECLTs. Those designated MEPS will store the various DLPTs and ECLTs, and ship to other MEPS on request. Sectors may require MEPS who are frequent users of either of these tests to maintain their own supply.

#### **5-3. Authorization to test**

a. Personnel authorized to test.

(1) Non-prior service applicants at least 17 years of age. If not 17 years of age or older, the applicant cannot test. If tested by mistake before the age of 17, the test will be suspended until the 17<sup>th</sup> birthday, scored and added to the applicant's record as invalid for enlistment purposes, and retest eligibility will start from the date of test.

(2) Whenever possible, military personnel (active duty, National Guard, and Reserve) will arrange to take special purpose tests from their own service TCO at a military installation. However, on a case-by-case basis, MEPS commanders may authorize administration of a special purpose test for in-service purposes at their MEPS (this does not apply to personnel assigned to the MEPS). Military personnel will submit a memorandum from their unit commander requesting the MEPS commander to administer the test, and the memorandum must include the reason for retest, state the member's personnel records indicate eligibility to take the particular test, and the address the results are to be sent. Before taking a special purpose test, active

duty marines and Marine Corps reservists, other than those applying for officer programs, must get permission in writing from the Commandant of the Marine Corps (ATTN: HQ Marine Corps, Marsh Center, Manpower and Reserve Affairs (MA), 3280 Russell Road, Quantico, VA 22134-5103). Marine Corps IRR members do not need the Commandant's permission before testing in a MEPS. If any military personnel, not including IRR, tests in a MET site and not in a MEPS, the test will be invalidated.

(3) Military personnel (active duty, National Guard, and Reserve) who are changing components or Services can be administered a special purpose test at the MEPS. These personnel are required to present a completed USMEPCOM Form 680-3A-E to the TA before taking the test. Personnel do not need a DD Form 368 (Request for Conditional Release) to take the test. If the applicant receives a qualifying score for the successor component, and is otherwise qualified and accepted, the DD Form 368 is needed to complete the enlistment or appointment process.

(4) PS applicants will test according to guidance in the appropriate service directives. The validity period for previous test scores and associated source documentation for PS applicants will be determined by each service. PS applicants do not need a DD Form 368 to take a special purpose test.

(5) MEPS TAs who need to take a special purpose test will be removed from testing duties and not have access to test material for that particular test for at least 6 months prior to the scheduled test date. Waivers of the 6-month rule will be considered on a case-by-case basis for a TA applying for special programs with submission time requirements. Request waivers through sector to J-3/MOP-TD.

(6) USMEPCOM personnel who need to take a special purpose test will request a waiver through their chain of command to J-3/MOP-TD.

(7) Individuals in a service DEP are authorized to take special purpose tests.

b. Personnel not authorized to test.

(1) Service recruiters (military and civilian) and liaisons are not allowed to take a special purpose test in the MEPS. Refer these members to their nearest military installation.

(2) An applicant disqualified and on hold status due to positive drug/alcohol test results is not authorized to take a special purpose test until the eligibility date for further processing (removal of hold status) is met. If tested while on medical hold for positive drug/alcohol results, the test will be invalidated.

#### **5-4. Request for examination**

a. Personnel will be projected by the services using USMEPCOM Form 727-E (Processing List (PL)). The applicant must present a completed USMEPCOM Form 680-3A-E to the TA prior to the examination.

b. Military personnel who are not changing components will present a memorandum, signed by their unit commander, which requests the MEPS to administer a special purpose test. The MEPS commander will endorse the memorandum before the individual takes the test.

**Note:** Active-duty marines must provide memorandum from the Commandant of the Marine Corps prior to taking the special purpose test.

#### **5-5. Test facility requirements**

a. A clock must be visible to applicants.

b. A sign stating "Test will end at (time)" must be posted near the clock. A permanent blackboard is sufficient for this requirement.

- c. A sign stating “Test in session—will end (time)” must be posted at each entrance to the test room (all test sessions).
- d. The test room must be free from noise and visual distractions, and be properly illuminated (all test sessions).
- e. Each seat must afford the tester appropriate writing surface for scratch paper (all test sessions).
- f. An audible electronic timer must be used for timing the various tests.

### **5-6. Applicant/TA ratio**

During special purpose testing, the maximum applicant/TA ratio for paper and pencil is 25:1. When the seating capacity exceeds 25, MEPS commanders are authorized to waive the ratio to 30:1, provided adequate security and integrity of the test can be maintained. When there are more than 30 applicants, the applicant/TA ratio shall revert back to 30:1 with no exceptions. During computerized testing, the maximum applicant/TA ratio is 40:1.

### **5-7. Authorized tests**

#### **a. AFAST**

- (1) Used to test Army flight school applicants.
- (2) Examinees will verify they have reviewed DA Pam 611-256-2 (Alternate Flight Aptitude Selection Test (AFAST) Information Pamphlet) on the answer sheet. TAs will not administer the AFAST to applicants who have not been given sufficient time to review pamphlet.
- (3) Use the DA Form 6256E (FAST Scoring Worksheet) for recording AFAST scores. File the form and answer sheet under record number 601-222d, disposition instruction in appendix A, section VI. Enter the scores in USMIRS; the scores will transfer to the Army system. Place a copy of the DA Form 6256E in the Service side of the accession packet and release one copy to the applicant.
- (4) Applicants who fail to qualify on the AFAST may retest one time only, but not sooner than 6 months after the initial test. AFAST scores do not expire. Requests for an exception to the retest policy will be initiated by the individual concerned and forwarded by the MEPS testing section personnel directly to U.S. Army Human Resources Command, Education Division (AHRC-PDE/APT), 200 Stovall Street, Suite 3N17, Alexandria, VA 22332-0472.
- (5) With permission from HRC, MEPS commanders may authorize an immediate retest when original tests were administered under adverse conditions (i.e., undue distractions). This does not include illness that existed prior to the test session, as applicants are informed not to take the test if ill.

#### **b. AFOQT**

- (1) Used to measure aptitudes for selecting candidates for Air Force commissioning programs.
- (2) Applicants who fail to qualify on the AFOQT may retest one time only, but not sooner than 180 days after the initial test. AFOQT scores do not expire.
- (3) Requests for an exception to the retest policy will be initiated by the individual concerned, and forwarded by MEPS testing section personnel directly to Headquarters, Air Force Reserves for Officer Training School applicants and Reserve applicants, Air Force Reserve Officer Corps (AFROTC) for AFROTC detachment applicants, and Army National Guard Reserve Center for Army National Guard

applicants. The MEPS personnel will include a copy of the approved exception request when the answer sheets are mailed for scoring.

(4) AFOQT answer sheets are not scored at the MEPS. Forward answer sheets via FedEx to HQ Air Force Personnel Center (AFPC/DPPPWT), 550 C Street West, Suite 9, Randolph AFB, TX 78150-4711 for scoring NLT the next working day after the test date. In addition, if an applicant has been caught cheating, the TCO/TST will attach a note to the answer sheets indicating the circumstances of the incident.

**c. AIM**

(1) A self-description inventory used by the Regular Army, Army Reserve, and the Army National Guard to assess an applicant's personal characteristics.

(2) The retest policy requires that no applicant will be administered another AIM test for 12 calendar months from the date of the applicant's last AIM test. AIM retests administered within 12 calendar months will be invalidated in the test score reporting software.

(3) Liaisons in each MEPS will identify Tier 2 and Tier 1 applicants to be tested.

(4) Tier 2 applicants have priority for seating in an AIM test session. Tier 1 applicants may fill any available seats once Tier 2 applicants have been seated.

**d. AP test**

(1) Used for Army and Marine Corps applicants to measure ability to recognize Morse Code signals.

(2) Applicants may continue retesting as long as it has been 6 months from the last test date. MEPS commanders may authorize an immediate retest when original tests were administered under adverse conditions (i.e., undue distractions). This does not include illness that existed prior to the test session, as applicants are informed not to take the test if ill.

(3) Scores do not expire.

**e. BAT**

(1) Used for Air Force applicants to measure psychomotor, cognitive, and personality attributes that are highly correlated with pilot training performance.

(2) Retesting is not authorized. MEPS commanders may authorize an immediate retest when original tests were administered under adverse conditions (i.e., undue distractions). This does not include illness that existed prior to the test session, as applicants are informed not to take the test if ill.

(3) The BAT is not scored at the MEPS. Forward the automated results to [PCSM.ADMIN@RANDOLPH.AF.MIL](mailto:PCSM.ADMIN@RANDOLPH.AF.MIL) (via e-mail) or AETC SAS/CS, (Attn: PCSM Program Manager), 151 J. St. E, Ste 2, Randolph AFB, TX 78150 (via disk) for scoring NLT the next working day after the test date. In addition, if an applicant is caught cheating, the TCO/TST will attach a note to the e-mail/disk shipment describing circumstances of the incident.

**f. DLAB**

(1) Used by the services for identifying individuals who have potential to study a foreign language.

(2) Applicants who fail to obtain a qualifying score on the DLAB may be given two retests, but not sooner than 6 months from each test date. DLAB scores do not expire.

(3) DLAB answer sheets are scored at the MEPS, and then forwarded via FedEx for recording purposes. Mail answer sheets to the Defense Language Institute Foreign Language Center (DLIFLC), ATTN: ATFL-ESM, 660 Rifle Range Road, Ste 13, Monterey, CA 93944-3136 NLT the first week of each month. In addition, if the applicant has been caught cheating, the TCO/TST will attach a note to the answer sheets describing the circumstances of the incident.

**g. DLPT**

(1) Used by the services to measure knowledge of a particular foreign language.

(2) The listening and reading portions of the test can be administered during the same test session. The speaking portion is not conducted in a MEPS.

(3) Applicants who fail to obtain a qualifying score on the DLPT may retest, but not sooner than 6 months from each test date. DLPT scores expire after 1 year. MEPS commanders may authorize an immediate retest when original tests were administered under adverse conditions (i.e., undue distractions). This does not include illness that existed prior to the test session, as applicants are informed not to take the test if ill.

(4) DLPT answer sheets are scored at the MEPS, and then forwarded for recording purposes. Mail answer sheets via FedEx to DLIFLC, ATTN: ATFL-ESM, 660 Rifle Range Road, Ste 13, Monterey, CA 93944-3136 NLT the first week of each month. In addition, if the applicant has been caught cheating, the TCO/TST will attach a note to the answer sheets describing the circumstances of the incident. Place DA Form 330 (Language Proficiency Questionnaire) in the enlistment packet of each Army applicant who is administered a DLPT at the MEPS.

**h. ECLT/American Language Course Placement Test (ALCPT).**

(1) Used by the services to measure English language proficiency for entry into military service, some reclassifications and promotions, or placement in English language classes.

(2) Applicants may continue retesting as long as it has been 30 days from the last test date. ECLT scores are valid for 105 days from the most recent test. MEPS commanders may authorize an immediate retest when original tests were administered under adverse conditions (i.e., undue distractions). This does not include illness that existed prior to the test session, as applicants are informed not to take the test if ill.

(3) ECLT answer sheets are scored at the MEPS, and then forwarded for recording purposes. FedEx answer sheets to DLIELC/LEACT, 2230 Andrews Avenue, Lackland AFB, TX 78236-5207 NLT the first week of each month. ALCPT answer sheets are scored at the MEPS only and not forwarded.

**i. EDPT**

(1) Used for Air Force and Marine Corps applicants to evaluate basic ability to complete formal courses dealing with operating and programming electronic data processing equipment.

(2) Applicants may continue retesting as long as it has been 6 months from the last test date. MEPS commanders may authorize an immediate retest when original tests were administered under adverse conditions (i.e., undue distractions). This does not include illness that existed prior to the test session, as applicants are informed not to take the test if ill.

**5-8. General special purpose testing direction**

- a. The TA will remain in the test room at all times when applicants are present.
- b. Recruiters/liaisons will not be allowed in testing rooms at any time during administration.
- c. TAs will not score tests or perform any non-related testing activities during the session.
- d. Deviations from specific instructions in test administration manuals are prohibited. Read directions verbatim, in English, while standing. TAs must ensure applicants ask and respond to questions in English.
- e. Applicants who abandon a test after answering a least one question are considered to have been tested. The TA must collect test material, to include scratch paper, and note the time and reason of departure on USMEPCOM Form 611-1-20-R-E (Special Purpose Test Examination) and/or MFR. The MEPS testing section personnel will notify the recruiting service of the action taken. Follow the normal retest policy for test eligibility.
- f. Scoring special purpose tests is summarized in table 5-1.

**5-9. Test administration**

- a. The TA will have enough test booklets in his or her possession and copies of the Privacy Act Statement (see app. C), as well as materials required per the applicable manual for administration.
- b. Applicants will provide the TA with a completed USMEPCOM Form 680-3A-E. The TA will review for accuracy and have the applicant sign block 23 in his or her presence. In an attempt to prevent ringer, the TA will verify the signature against the signatures in blocks 25, 26, and 27.
- c. The TA must be presented with a photographic identification card from the applicant. If no photographic identification card is available, the TA will ink the applicant's right thumb to obtain a thumbprint in the appropriate block on USMEPCOM Form 680-3A-E.
- d. The TA must maintain visual control of applicants once checked in for testing. If an applicant departs the area for any reason before the session starting, the TA will again verify the individual's status via photographic identification card or obtain a right thumbprint.
- e. Unless projected for testing and a records check has been conducted using USMIRS, a records check will be accomplished before the applicant tests. Review the applicant's eligibility to test and the previous versions used, if any. Checking USMEPCOM Form 680-3A-E or asking the applicant whether he or she was previously tested is not adequate for this purpose.
- f. The TA will complete USMEPCOM Form 611-1-20-R-E as applicants arrive to test, with the exception of AFOQT, AIM, and BAT. The following information will be entered on the form, at a minimum, by the TA:
  - (1) Applicant's name and SSN.
  - (2) Test administered and version, if applicable.
  - (3) Date tested.
  - (4) Place tested (MEPS).

g. Seat applicants in an orderly fashion so they cannot readily observe another applicant's answer sheet. When testing AFOQT, personnel seated side by side, behind, or in front of other personnel, will have alternate versions of the test.

h. The TA will read the following statement to the applicants:

“HAS ANYONE HERE TAKEN THE (TEST NAME) AT ANY TIME IN THE PAST, EITHER AT THIS MEPS OR AT ANOTHER MEPS, AND HAVE NOT IDENTIFIED THIS TO ME. IT IS EXTREMELY IMPORTANT THAT YOU TELL ME NOW IF YOU HAVE TESTED PREVIOUSLY. IF IT IS DISCOVERED THAT YOU HAVE TESTED PREVIOUSLY, AND YOU CHOOSE NOT TO TELL ME NOW, THE RESULTS OF THIS TEST COULD POSSIBLY BE INVALID FOR PLACEMENT IN ANY SPECIAL CAREER OPTION. IF SO, YOU WILL NOT BE ALLOWED TO TEST AGAIN UNTIL (STATE RETEST INTERVAL). THE USE OF ANY AIDS, OTHER THAN THOSE ALREADY GIVEN TO YOU, SUCH AS CALCULATORS, SLIDE RULES, OR MINIATURE COMPUTERS IS PROHIBITED, AND WILL RESULT IN YOUR TEST BEING TERMINATED.”

i. The TA will read the Privacy Act Statement (see app. C) and provide the applicants a copy if requested.

j. The TA will instruct the applicants to sign USMEPCOM Form 611-1-20-R-E.

k. Conduct the test session according to the appropriate manual for administration.

l. Upon completion of the test, the TA will:

(1) Instruct applicants to remain quietly in their seats.

(2) Collect materials, including scratch paper, directly from each applicant.

(3) Inventory test booklets and answer sheets (to include a quick page check (an inspection of the overlapping black lines on the edge of the pages)).

(4) Release applicants from the test room only after the test material has been accounted for.

(5) Conduct a page-by-page check of the test booklets once the TA returns to the secure storage room.

(6) Review test booklets for serviceability. Erase stray marks from test booklets. Destroy booklets that are worn or contain marks that cannot be completely erased. Test booklets will not be repaired in any fashion (e.g., stapling, taping, etc.).

(7) Secure accountable test material according to paragraph 2-3.

(8) Review answer sheets to ensure personal information (i.e., applicant's name and SSN) are entered correctly. If appropriate, test scorers can make minor administrative changes to the answer sheet, but will not make changes to the applicant's subtest item responses, to include darkening in responses. Do not write test scores on answer sheets.

(9) Score the test, with the exception of AFOQT and BAT (which are not scored before shipment of answer sheets) and AIM.

(a) Use USMEPCOM Form 611-1-20-R-E.

(b) Complete the form in black ink and initial any corrections.

(c) Two separate scorers must be used.

(d) The first scorer will enter the raw or converted scores on USMEPCOM Form 611-1-20-R-E, as prescribed in the applicable manual for administration, in his or her own writing. The first scorer will retain the original for comparison after the second scorer scores the answer sheets (second scorer will not see the original copy prior to completion of scoring).

(e) The second scorer scores the test.

(f) After both individuals have scored the answer sheets, the two sets of results will be compared and discrepancies corrected, if any.

(g) When the scoring is completed, the first scorer will place the date and his or her initials in the "Computed By" block of the original copy.

(h) The second scorer will place the date and his or her initials in the "Verified By" block of the original copy.

(i) Once both individuals have initialed and dated USMEPCOM Form 611-1-20-R-E in the appropriate blocks, make two additional copies of the original form.

(j) Distribute USMEPCOM Form 611-1-20-R-E as follows:

1. Place the original in the applicant's packet.

2. File the second copy under record number 601-222d (disposition in app. A, sec. VI).

3. Provide the third copy to the recruiting service liaison.

(10) Add/update personal data as required.

(11) Enter test type and date, and results if scored at MEPS, into USMIRS.

(12) Initial and date the USMIRS coding block of the new USMEPCOM Form 680-3A-E, if applicable, to indicate a files check was accomplished and the scores have been verified and are ready for release to the appropriate recruiting service.

(13) Build applicant's packet, or add to applicant's packet if one already exists, with the following documents:

(a) USMEPCOM Form 680-3A-E used for testing. USMEPCOM Forms 680-3A-E presented for testing must be retained in the applicant's packet.

(b) USMEPCOM PCN 680-3ADP printed after the personal and/or test data has been merged. The most recent USMEPCOM PCN 680-3ADP must be retained in the applicant's packet.

(c) Original copy of USMEPCOM Form 611-1-20-R-E.

(14) Deliver the applicant's packet to the MEPS files room. Handle any further activity concerning the packet according to guidance in USMEPCOM Reg 601-23.

**5-10. Test results**

- a. Do not release special purpose test results directly to applicant.
- b. Provide results from special purpose tests, if scored at the MEPS, to the appropriate recruiting services no later than the first workday following the test. If local circumstances dictate a longer timeframe, notify the IRC and sector.

**5-11. Answer sheet storage and shipment**

- a. Answer sheets not forwarded outside the MEPS will be filed under record number 601-222d (disposition in app. A, sec. VI). Answer sheets may be destroyed after 30 days.
- b. The TCO/TST will oversee mailing of answer sheets/automated results via FedEx to outside agencies for scoring or recording purposes. Do not fold, crease, pin, clip, or alter answer sheets in any manner. Package and mail them according to paragraph 2-5 above. The MEPS testing section personnel will enclose a DA Form 200 (Transmittal Record) listing each answer sheet/disk by number and each applicant's name and SSN. File a copy of the DA Form 200 under record number 1n1 (app. A, sec. VI).
- c. Answer sheet shipments must be tracked to ensure receipt at appropriate destination. A signed DA Form 200 from the receiving agency, annotation of a confirmed telephonic receipt, or electronic results on a Web site will suffice.

<b>Table 5-1 Scoring Special Purpose Tests</b>				
<b>Test Title</b>	<b>Version</b>	<b>Scoring</b>	<b>Retest</b>	<b>How often/How many times</b>
Alternate Flight Aptitude Selection Test (AFAST)		-Seven subtests. Test is graded using number of right answers and a correction factor based on the number of wrong answers. -Seven standard scores T1, T2, T3, T4, T5, T6, T7. -Score length is two digits. For T1, T5, and T7, number right is converted directly to a standard score. For T2, T3, T4, and T6, the number right minus 1/4 the number wrong is converted to a standard score. -The Reported Equated Score is three digits, range 0-160.	Yes	-Applicants who fail to qualify on the AFAST may retest one time only, but not sooner than 6 months after the initial test. Once an applicant has achieved a qualifying score, they are not allowed to retest. -Refer to USMEPCOM Regulation 611-1 for additional instructions.
Air Force Officer Qualifying Test (AFOQT)		Not scored at the MEPS. Answer sheets are forwarded to Randolph AFB for scoring. Ensure the control log is utilized.	Yes	-One time only, but no sooner than 180 days after the initial test. -Refer to USMEPCOM Regulation 611-1 for additional instructions.
Assessment of Individual Motivation (AIM)		CTS scored only. Two digit score.	Yes	Applicants may retest as long as it has been 12 months since the last test taken.
Auditory Perception Test (AP)		-Raw score is converted to a standard score based on number of right and wrong answers. -One total standard score, score length is three digits, range is 0-160.	Yes	-Applicants may continue retesting as long as it has been 6 months from the last test date. -Refer to USMEPCOM Regulation 611-1 for additional instructions.
Basic Attribute Test (BAT) Administered at only two MEPS.		Not scored at MEPS.	No	Refer to USMEPCOM Regulation 611-1 for instructions.

<b>Test Title</b>	<b>Version</b>	<b>Scoring</b>	<b>Retest</b>	<b>How often/How many times</b>
Defense Language Aptitude Battery (DLAB)	DLAB Form A and B.	-Raw score is converted to one total standard score. -Score length is three digits and range is 12-164. -Conversion table is in the DLAB Administration and Scoring Manual.	Yes	-Army: Applicants who fail to obtain a qualifying score on the DLAB may be given two retests, but not sooner than 6 months from each test date. Once score of 85 is reached, no retests are allowed unless approved by Army Continuing Education System (ACES) HQ. -Navy: Applicants who fail to obtain a qualifying score on the DLAB may be given two retests, but not sooner than 6 months from each test date. -Air Force: Retest allowed if 6 months have passed since initial test. A second retest requires a waiver from Air Force Personnel Center (AFPC). -Refer to USMEPCOM Regulation 611-1 for additional instructions.
Defense Language Proficiency Test (DLPT)	DLPT IV	-Use the conversion table (on the back of the DLPT IV answer key); convert raw scores for both the Listening and Reading Tests. The resulting converted score (a two digit figure with a range of 0-60) is used in determining the skill level. -The skill level range is 0-3 for all Services except Air Force, which uses a skill level range of A-G. -The scores to be reported for each test are the converted score and skill level. At no time will the raw score be discussed or disclosed to an examinee. (0,0+,1,1+,2,2+,3,3+,4,4+, or 5).	Yes	-Applicants may retest as long as it has been 6 months from the last test date. No retest within six months unless approved by Army Continuing Education System (ACES) HQ. -Refer to USMEPCOM Regulation 611-1 for additional instructions.
English Comprehension Level Test (ECLT)	M,N,O	Two portions to test, a listening part and a reading part. The portions are not scored separately; the test generates only a global proficiency score. Score range is 0-100.	Yes	-Applicants who fail this test may continue retesting as long as it has been 30 days from the last test date. -Refer to USMEPCOM Regulation 611-1 for additional instructions.

<b>Table 5-1 Scoring Special Purpose Tests-Continued</b>				
<b>Test Title</b>	<b>Version</b>	<b>Scoring</b>	<b>Retest</b>	<b>How often/How many times</b>
Oral Proficiency Interview (OPI)	Telephonic	-Generates two scores, a score for comprehension and a score for speaking. The scores are always reported with the comprehension score first, followed by a slash, followed by the speaking score. For example, 2/1+. There are 11 possible scores: (0,0+,1,1+,2,2+,3,3+,4,4+, or 5). -Scored by DLIELC raters who report results to MEPS POC approximately 2 days after the interview.	Yes	Nonresident applicants who fail this test may be re-interviewed after a waiting period of 90 calendar days; during this period applicants should be enrolled in an intensive English language program that stresses oral communication.
American Language Course Placement Test (ALCPT)	Forms US1 thru US5 are being used.	Two portions to the test (listening and reading), however, only a single score is reported. Score range is 0-100.	Yes	-Applicants may continue retesting as long as it has been 30 days from the last test date. -Refer to USMEPCOM Regulation 611-1 for additional instructions.
Oral Proficiency Interview (OPI)	Telephonic	See OPI information above.	Yes	See OPI information above
Electronic Data Processing Test (EDPT)		One total raw score (number right), score length is three digits, range is 000-121.	Yes	-Applicants may continue retesting as long as it has been 6 months from the last test date. -Refer to USMEPCOM Regulation 611-1 for additional instructions.

## **Chapter 6**

### **Confirmation Testing**

#### **6-1. Confirmation testing**

Confirmation testing applies to applicants who were administered retests on any form of the ASVAB within 6 months of their previous test. There is no distinction between enlistment and student ASVAB when deciding if a confirmation retest is required. Confirmation testing will be conducted in the MEPS. Test associated with the confirmation retest process will be entered in USMIRS.

#### **6-2. Critical gain**

If an applicant's most recent test score is 20 AFQT points or more than their previous test score (critical gain), and the two tests are within 6 months of each other, the applicant is required to complete a confirmation test. The MEPS testing section personnel will ensure the test record created in the USMIRS reflects the requirement for a confirmation test ("H" status).

#### **6-3. Confirmation test administration**

a. Each service liaison will be responsible for advising the applicant's recruiter that a confirmation test is required at the MEPS, and no further processing is authorized until:

(1) The confirmation test is passed, or

(2) The 6 months have elapsed from the date of the applicant's retest, at which time the applicant may voluntarily retest or use his or her current score of record (the first of the two tests that caused the confirmation test).

b. Each service liaison will be responsible for requesting and scheduling the applicant to take the confirmation test. The applicant's complete and accurate testing history must be provided using USMEPCOM Form 680-3A-E, the "confirmation" block must be checked, and the versions and forms of the applicant's two most recent ASVAB tests must be reflected. The TA will conduct a records check and compare USMEPCOM Form 680-3A-E with documents in the applicant's packet to ensure the information submitted is correct.

c. Confirmation testing with the same version of the ASVAB that was used on any previous test is strictly prohibited for at least 6 months.

#### **6-4. Scoring the confirmation test**

a. When the applicant completes a confirmation test, his or her AFQT from the confirmation test must be compared to the previous test, and:

(1) If the applicant's confirmation test AFQT is higher than the AFQT from the previous test, or the AFQT from the confirmation test does not decrease by more than half the value of the critical gain, then the applicant has met required criteria for a successful confirmation test. The applicant may resume processing if otherwise qualified and the results from the test that prompted the confirmation test become the score of record, not the confirmation test scores.

(2) If the applicant's confirmation test AFQT exhibits a gain reversal (i.e., confirmation test AFQT is lower than his or her previous retest AFQT and the decrease is greater than half of the value of his or her critical gain), a confirmation interview is required. This interview will determine the cause of the anomaly and scores associated with the confirmation test are held from further processing pending results of that interview.

**6-5. Confirmation interview administration**

a. Applicants refusing to return for the confirmation interview must wait 6 months for further processing from the date of the confirmation test. At this time, they may voluntarily retest or process on their last valid test score.

b. The following procedures apply to applicants who meet criteria for failure on a confirmation test:

(1) The TCO/TST will coordinate with the service liaison to ensure applicants exhibiting gain reversals are scheduled for a confirmation interview.

(2) Confirmation interviews will be conducted by the MEPS TCO/TST, operations officer, or commander. The typical interview (see MEPNET) will be structured with a uniform set of questions, presented in a neutral format, with the goal of obtaining an explanation for the applicant's critical gain on the retest followed by the gain reversal.

c. Processing may continue if the applicant's responses during the interview reveal a reasonable explanation for the gain reversal obtained on the confirmation test. The scores from the test that prompted the confirmation test are now valid for enlistment.

d. Prohibit further processing for 6 months from the date of the confirmation test if, during the course of the interview, physical, mental, or environmental factors are insufficient explanation for the gain reversal obtained on the confirmation test, and it becomes evident that the critical gain score resulted from ASVAB testing improprieties.

(1) Categories of testing impropriety may include, but are not limited to:

(a) Release of accountable test materials to any person other than to those personnel authorized access.

(b) Unauthorized use of testing aids (e.g., crib sheets, cellular telephones, calculators, etc.).

(c) Deviations from specific instructions contained in the applicable manual for administration (e.g., excess time allotted), or failure to comply with TA instructions (e.g., moving forward or backward to other parts of the test).

(d) Recruiter or TA impropriety (e.g., coaching, ringer, etc.).

(e) Copying answers from other applicants.

(2) Report the incident according to paragraphs 2-10 and/or 2-14.

e. Maintain documentation used for and generated from the confirmation interview under record number 601-222d; disposition instructions are in appendix A, section VI.

## **Chapter 7 Overseas Testing**

### **7-1. Overview**

The overseas testing program is administered on overseas bases and DOD high schools for both the enlistment and student testing programs. The military service of the base or school conducting the tests is responsible for testing. Administration and inventory is managed through individual Service program managers. This chapter pertains to the two MEPS who service overseas sites: New York and Honolulu.

### **7-2. Enlistment testing program responsibilities**

#### **a. MAPWG representatives will—**

(1) Ensure Services appoint an ASVAB overseas program manager and identify to MAPWG representative as the point of contact for USMEPCOM ASVAB overseas program manager.

(2) Review and approve ASVAB overseas policy changes/updates and coordinate with Services ASVAB overseas program managers and overseas recruiting Services.

#### **b. HQ USMEPCOM will—**

(1) Ensure USMEPCOM forms used to support the Services ASVAB overseas program are available at USMEPCOM Web site <http://www.mepcom.army.mil/>.

(2) Coordinate with the Services ASVAB overseas program managers for implementation of all procedural and/or policy changes for dissemination to overseas testing personnel.

(3) Report testing procedural and documenting problems to appropriate Service ASVAB overseas program manager to identify trends and determine corrective action.

(4) Maintain ample test materials at United States Army Publishing Distribution and Operations Facility to support the Services ASVAB Overseas Program.

(5) Provide training materials as needed to overseas Services test administration personnel and recruiters to support this regulatory guidance.

#### **c. Services ASVAB overseas program manager will—**

(1) Maintain appointment orders of authorized testing personnel and provide roster of authorized ASVAB testing personnel to HQ USMEPCOM.

(2) Notify HQ USMEPCOM Testing Division on following occurrences:

(a) All test loss or compromise within one working day after occurrence.

(b) Change of ASVAB overseas testing personnel. Provide updated roster upon the departure and/or arrival of new personnel, and prior to assuming testing duties.

(3) Identify training requirements to HQ USMEPCOM Testing Division.

(4) Disseminate policy and/or procedural changes to overseas testing personnel.

(5) Establish acquisition procedure for testing personnel to obtain all required ASVAB testing materials.

(6) Ensure testing personnel conduct inventory of ASVAB materials annually and upon departure and arrival of testing personnel.

(7) Ensure all testing locations have a numerical identifier, which will be used by the Honolulu or New York MEPS as the MET identification.

**d. Military Services overseas testing personnel will—**

(1) Administer the enlistment test to applicants who provide a completed original USMEPCOM Form 680-3A-E.

(2) Administer the enlistment test using Test Forms 25a, 25b, 26a & 26b according to DD Form 1304-2AM (Manual for Administration – Enlisted (ASVAB)).

(3) Prohibit recruiters from the testing area at all times.

(4) Recruiting personnel, and/or designated career recruiters are prohibited from performing duties as a TCO and/or TA for the ASVAB.

(5) Calculate only the unverified AFQT score for applicants using the PDA AFQT calculator (refer to PDA User's Guide for instructions).

(6) Document the unverified AFQT score on USMEPCOM Form 611-1-2-R-E. Provide the form to the applicant's recruiter when present. If the recruiter is not at the test site, give the unverified score to the applicant in a sealed envelope addressed to the recruiter. Any other delivery method will require recruiter-initiated coordination with the TA.

(7) Retain copies of completed enlistment answer sheets on file under record number 601-222d. Copies of the answer sheet are to be handled as controlled test materials until destroyed.

(8) Mail the following documents via FedEx, certified or registered, to the overseas supporting MEPS within two working days after administering the test:

(a) USMEPCOM Form 680-3A-E.

(b) DD Form 1304-2AS (Enlistment Answer Sheet).

**Note:** For use, refer to DD Form 1304-2AM.

(c) USMEPCOM Form 611-1-7-R-E.

(9) USMEPCOM forms are available via the internet at <http://www.mepcom.army.mil>.

**e. Recruiting Services will—**

(1) Ensure that a USMEPCOM Form 680-3A-E is completed for each applicant and the original is presented to the test administrator prior to the administration of the enlistment test.

(2) Assume responsibility for all other qualification requirements that affect the accession of overseas applicants, i.e. fingerprinting, background screening, medical examinations, etc.

**Note:** Recruiting personnel, and/or designated career recruiters are prohibited from performing duties as a TCO and/or TA for the ASVAB.

**f. New York and Honolulu MEPS will—**

(1) New York MEPS provides official ASVAB scoring support for European, Caribbean, and Central American areas.

(2) Honolulu MEPS provides official ASVAB scoring support for the Pacific and Far East areas.

(3) Ensure all ASVAB testing sites have codes that start with the MEPS identification followed by “88”.

(4) Score the enlistment ASVAB and process through USMIRS within two working days of receipt.

(5) Attempt to resolve all procedural and/or policy violations with the responsible overseas test personnel when tests are forwarded with discrepancies.

(6) Report all procedural and/or policy discrepancies to HQ USMEPCOM, ATTN: J-3 (Operations), Testing Division.

**7-3. Confirmation testing**

When a confirmation test is required overseas, the ideal situation is to have the applicant take the test at a different site than where the test prompting a confirmation test was administered. In the event that the confirmation test must be taken at the original site, all reasonable efforts must be made to ensure test integrity. For example, a different TA must administer the test, a TA from another site administers the test (e.g., a visiting MEPS TA), or a request is made to the local education office for test administration. In any situation where there is only one available testing location, the test will be administered at that location. The ideal situation would be to have another TA administer the test. To ensure proper scoring procedures, the TA must ensure that block 12 on page 1 of the answer sheet is filled in prior to forwarding to the servicing MEPS. In addition, the TA will annotate “CONFIRMATION TEST” with a red felt tip pen along the left crease of the answer sheet. Reference chapter 6 for further details.

**7-4. Special purpose test**

When the services administer a special purpose test, they will procure their own test materials from their TCOs and provide their own testing facility. In addition, results of special purpose tests administered by the services will not be entered into the USMIRS, with the exception of those tests administered at overseas test sites. Special purpose tests conducted by overseas TCOs are processed through New York MEPS and Honolulu MEPS for their assigned area of responsibility. Those two MEPS are required to enter scores from those special purpose tests conducted by overseas TCOs in the USMIRS.

**7-5. Student testing program responsibilities**

**a. MAPWG representatives will—**

(1) Ensure Services appoint a Student ASVAB overseas program manager and identify to MAPWG representative as the point of contact for USMEPCOM ASVAB overseas program manager.

(2) Review and approve Student ASVAB overseas policy changes/updates with Services ASVAB overseas program managers and recruiting Services.

**b. HQ USMEPCOM will—**

(1) Ensure USMEPCOM forms used to support the Services ASVAB Overseas Program are available at USMEPCOM Web Site, <http://www.mepcom.army.mil/>.

(2) Coordinate with the Services ASVAB overseas program managers for implementation of all procedural and/or policy changes for dissemination to overseas testing personnel.

(3) Report overseas test scores and documenting problems, when identified to appropriate Service ASVAB overseas program manager.

(4) Provide training materials as required to overseas Military Services test administration personnel, recruiters and Department of Defense Dependent Schools (DoDDS) guidance counselors to support this regulatory guidance.

(5) Maintain ample test materials at United States Army Publishing Distribution and Operations Facility to support the ASVAB Overseas Program.

(6) Provide training materials as required to overseas Services test administration personnel and recruiters to support this regulatory guidance.

**c. Services ASVAB overseas program manager will—**

(1) Maintain appointment orders of authorized testing personnel and provide roster of authorized ASVAB testing personnel to HQ USMEPCOM.

(2) Notify HQ USMEPCOM Testing Division on following occurrences:

(a) All test loss or compromise within one working day after occurrence.

(b) Change of ASVAB overseas testing personnel. Provide updated roster upon the departure and/or arrival of new personnel, and prior to assuming testing duties.

(3) Identify training requirements to HQ USMEPCOM Testing Division.

(4) Disseminate policy and/or procedural changes to overseas testing personnel.

(5) Establish acquisition procedure for testing personnel to obtain all required ASVAB testing materials.

(6) Ensure testing personnel conduct inventory of ASVAB materials annually and upon departure and arrival of testing personnel.

(7) Monitor to ensure overseas DoDDS have a school code issued by Honolulu or New York MEPS prior to testing.

**d. Military Services testing personnel will—**

(1) Administer student ASVAB using test forms 23a, 23b, 24a & 24b only.

(2) Administer the student test in accordance with the DD Form 1304-5AM (ASVAB Career Exploration Program, Manual for Administration Student), and mail, via FedEx, testing documents to Honolulu or New York MEPS.

(3) Review USMEPCOM Form 601-4-3-R-E (Student ASVAB Test Record) to ensure ample test materials are available and confirm test date scheduled by the recruiter at the school.

(4) Prior to test administration, obtain the proctor's signature certifying they understand their test proctor duties and responsibilities. Signature block is on the backside of USMEPCOM Form 601-4-3-R-E.

(5) Mail the following documents via FedEx, certified or registered mail to the supporting overseas MEPS within two working days after administering the student test:

(a) USMEPCOM Form 601-4-3-R-E.

(b) DD Form 1304-5AS, Student Answer Sheet for use (DD Form 1304-5AM).

**e. Recruiting Services will—**

(1) Military recruiters assigned to the school have the responsibility for coordinating, scheduling and providing proctor support, for student testing.

(2) Military recruiters shall not handle, distribute, or collect test materials.

(3) Proctors will read the reverse of USMEPCOM 601-4-3-R-E, Test Proctor Duties/Responsibilities Briefing and sign the certification of understanding at the bottom of the form.

**f. New York and Honolulu MEPS will—**

(1) New York MEPS provides official ASVAB scoring support for European, Caribbean, and Central American areas.

(2) Honolulu MEPS provides official ASVAB scoring support for the Pacific and Far East areas.

(3) Score and return the Student ASVAB printed results to DoDDS and Military Services within 10 working days of receipt.

(4) Attempt to resolve all procedural and/or policy violations with the responsible overseas test personnel when tests are forwarded with discrepancies.

(5) Honolulu MEPS will issue school codes with the first two digits of "58".

(6) New York MEPS will issue school codes with the first two digits of "57".

**Section VI** (The record numbers this regulation prescribes for the user to file specific documents.)

**Required Record Numbers**

**1e**

Housekeeping instructions. Cited in paragraph 1-5.

Disposition: KE6. Event is when superseded or obsolete. Keep in CFA until event occurs and then until no longer needed for conducting business, but not longer than 6 years after the event, then destroy.

**1n1**

Office mail controls – Accountable mail receipts. Cited in paragraph 5-11b.

Disposition: K2. Keep in CFA until record is 2 years old, then destroy.

**1oo**

Policies and precedents. Cited in paragraphs 3-3d.

Disposition: KE6. Event is when superseded or obsolete for individual documents or upon discontinuance of organizational element to which it relates for entire file; whichever applies. Keep in CFA until event occurs and then until no longer needed for conducting business, but not longer than 6 years after the event, then destroy.

**1v1**

Access controls –Appointment documents, access rosters, and local control procedures. Cited in paragraph 2-3c.

Disposition: KE6. Event is upon completion of first entry on new form. Keep in CFA until event occurs and then until no longer needed for conducting business, but not longer than 6 years after the event except forms involved in an investigation will be kept until the investigation is completed, then destroy.

**1v3**

Access controls – forms used to record entry in vaults or containers. Cited in paragraph 2-3d.

Disposition: KE6. Event is upon completion of first entry on new form. Keep in CFA until event occurs and then until no longer needed for conducting business, but not longer than 6 years after the event except forms involved in an investigation will be kept until the investigation is completed, then destroy.

**1w**

Office general personnel files. Cited in paragraph 1-6.

Disposition: K6. Keep in CFA until no longer needed for conducting business, but not longer than 6 years, then destroy.

**11-7a**

Internal review and audit files. Cited in paragraphs 4-2f.

Disposition: KE6. Event is after completion of audit recommendations to address any deficiencies. Keep in CFA until event occurs and then until no longer needed for conducting business, but not longer than 6 years after the event, then destroy.

**25-30jj**

Publication stock record cards. Cited in paragraph 2-8.

Disposition: KE6. Event is when card is filled or on supersession, rescission, or obsolescence of form or publication; whichever is first. Keep in CFA until event occurs and then until no longer needed for conducting business, but not longer than 6 years after the event, then destroy.

**601**

General personnel procurement correspondence files. Cited in paragraph 4-4a.

Disposition: KE6. Event is 2 years after cutoff on action documents or when no longer needed for current operations for non-action documents; whichever applies. Keep in CFA until event occurs and then until no longer needed for conducting business, but not longer than 6 years after the event, then destroy.

**601-222a**

Test material accountability. Cited in paragraph 2-10d(1)(c).

Disposition: KE6. Event is after all booklets or scoring keys listed thereon have been destroyed. Keep in CFA until event occurs and then until no longer needed for conducting business, but not longer than 6 years after the event, then destroy.

**601-222d**

Qualification test answers. Cited in paragraphs 2-5c(2)(a).

Disposition: K6. Keep in CFA until no longer needed for conducting business, but not longer than 6 years, then destroy. Answer sheets for test administered to Air Force personnel will be forwarded in accordance with AR 601-270.

**601-222f**

Test material inventories. U.S. Military Entrance Processing Command. Cited in paragraph 2-5a(2).

Disposition: KE6. Event is when next inventory is approved. Keep in CFA until event occurs and then until no longer needed for conducting business, but not longer than 6 years after the event, then destroy.

**710-2c**

Hand Receipts. Cited in paragraph 4-3b.

Disposition: KE6. Event is on turn-in or other complete accounting for the property, or when superseded by a new receipt or listing. Keep in CFA until event occurs and then until no longer needed for conducting business, but not longer than 6 years after the event, then destroy. Note: Individuals may request and receive the canceled hand receipt for their own retention. In such case, the canceled hand receipt becomes the individual's personal property and ceases to be an official Army record.

## **Appendix B**

### **Management Control Evaluation Checklist - Testing Operations**

#### **B-1. Function**

The functions covered by this checklist are security/accountability of test materials, test administration, test scoring, military entrance test (MET) sites, and special purpose testing.

#### **B-2. Purpose**

This purpose of this checklist is to assist commanders and test control officers (TCOs) in evaluating the key management controls listed below. It is not intended to cover all controls.

#### **B-3. Instructions**

Answers must be based on the actual testing of key management controls (e.g., document analysis, direct observation, sampling simulation, other). Answers that indicate deficiencies must be explained and corrective actions indicated in the supporting documentation. These controls must be evaluated at least once every 2 years. Certification that the evaluation has been conducted will be done on DA Form 11-2-R (Management Control Evaluation Certification Statement).

#### **B-4. Test questions**

**a. Security/Accountability.** The objective is to ensure test materials are handled and secured by the military entrance processing station (MEPS) according to procedures outlined in this regulation.

(1) Has an access roster been published listing personnel authorized unescorted access to accountable test material and restricted area(s), and is it posted at each entrance to testing restricted area(s)? (USMEPCOM Reg 611-1, par. 2-2c)

(2) Did the TCO/TST and the disinterested witness conduct an annual inventory of accountable test material in the MEPS within 12 months of the previous annual/joint inventory? Did the TCO/TST and the disinterested witness sign USMEPCOM Form 611-1-1-R-E (Annual, Joint, Other Inventory of Accountable Test Material) and initial USMEPCOM Form 611-1-8-R-E (Inventory of MEPS ASVAB Test Material)? (USMEPCOM Reg 611-1, par. 2-5a(1))

**b. Test administration.** The objective is to ensure testing personnel are knowledgeable in the areas of ASVAB test administration.

(1) Is a completed USMEPCOM Form 680-3A-E (Request for Examination) submitted by each applicant? (CAT-ASVAB or paper and pencil session) (USMEPCOM Reg 611-1, par. 3-4a)

(2) Is the test room furnished with a clock (visible to applicants) and a sign stating the subtest (number) will end at (time) posted near the clock? (USMEPCOM Reg 611-1, pars. 3-5a and b) (Paper and pencil session)

(3) Are recruiters/liaisons not allowed to enter test rooms when testing material is present? (USMEPCOM Reg 611-1, par. 3-7c) (CAT-ASVAB or paper and pencil session)

(4) Does the TA remain in the test room when applicants are present? (USMEPCOM Reg 611-1, par. 3-7b) (CAT-ASVAB or paper and pencil session)

**c. Test scoring.** The objective is to ensure testing personnel are knowledgeable in the area of ASVAB test scoring.

(1) Is a scorer and verifier used when manually scoring tests, and is the minimum information annotated on USMEPCOM Form 611-1-20-R-E? (USMEPCOM Reg 611-1, pars. 3-11a(2))

(2) Does the TA conduct weekly scoring analyses to ensure accuracy of the OMR? (USMEPCOM Reg 611-1, par. 3-12a)

**d. MET sites.** The objective is to ensure MEPS personnel are knowledgeable in the establishment and administration of MET sites.

(1) Is an approval memorandum signed by the MEPS commander on file for those MET sites where accountable test material is stored? (USMEPCOM Reg 611-1, par. 4-2e)

(2) Are MET sites being inspected at intervals not to exceed 18 months? (USMEPCOM Reg 611-1, par. 4-2f)

**e. Special purpose testing.** The objective is to ensure testing personnel are knowledgeable in the administration of special purpose tests to determine qualifications of applicants for specific occupational specialties.

(1) Are MEPS testing personnel requiring a completed USMEPCOM Form 680-3A-E for a special test if one is not already on file? (USMEPCOM Reg 611-1, par. 5-4a)

(2) Are special purpose tests conducted only at the MEPS? (USMEPCOM Reg 611-1, par. 5-2c)

(3) Did the TA(s) remain in the test room at all times during test administration? (USMEPCOM Reg 611-1, par. 5-8a)

**B-5. Super session**

This management control evaluation checklist replaces the previously published version in USMEPCOM Reg 611-1 (21 May 03).

**B-6. Comments**

Help make this a better tool for evaluating management controls. Submit comments to HQ USMEPCOM, J-3/MOP-TD.

**B-7. Use of DA Form 11-2-R.**

DA Form 11-2-R (Management Control Evaluation Certification Statement) is designed to document any management control evaluation. Certification that a management control evaluation has been conducted will be certified on this form.

**Appendix C**  
**Privacy Act Statement**

Data required by the Privacy Act of 1974 (Title 5, United States Code, Section 552a) the Less Paper Policy Act, and Title 44 United States Code Section 4501 ET SEQ (Personnel tests).

Privacy Act Statement:

Authority: 44 USC 3103, 10 USC 133, 10 USC 3012, Executive Order 9397.

Principle Purpose: To request the administration of an enlistment qualification examination. Your social security number is used to positively identify qualification results.

Routine Use: To compute and verify test scores to determine eligibility for enlistment in the Armed Forces, and provide scores to recruiting services. To provide data to DOD agencies and appropriate outside activities for compilation or research purposes.

Disclosure: Disclosure is mandatory. If you fail to answer any of the personal questions, you will not be allowed to take the test.

## **Appendix D**

### **Instructions for Creating MET Site Codes**

#### **D-1. MET site codes within the continental United States**

Each code in the table will consist of four positions as follows:

Position 1: 1 = MEPS TA  
2 = OPM TA

Positions 2 & 3: A unique two-digit number assigned by the MEPS commander. This number must be unique within the MEPS and must not change for a given physical MET site.

**Note:** Use “99” for in-house testing (testing within the physical confines of the MEPS).

Position 4: 1 = Day test session (a test session that starts between the hours of 0600 and 1359)  
2 = Night test session (a test session that starts between the hours of 1400 and 0559)  
3 = Saturday test session (day or night)  
4 = Sunday test session (day or night)  
5 = Second day session  
6 = Second Saturday session

Examples of MET site codes:

1011 = A test session given at site “01” by a MEPS TA during the day.

1022 = A test session given at site “02” by a MEPS TA during the night.

2013 = A test session given at site “01” by an OPM TA during a Saturday session (day or night).

1994 = A test session given in-house “99” by a MEPS TA during a Sunday session (day or night).

1995 = A second day session given in-house “99” by a MEPS TA between 0600 and 1359.

1046 = A second Saturday test session given at site “04” by a MEPS TA.

#### **D-2. MET site codes for overseas testing**

Each code in the table will consist of four positions as follows:

Positions 1 & 2: Use the two digit code “88” for overseas MET sites.

Positions 3 & 4: A unique number assigned by the MEPS commander. This number must be unique within the MEPS and must not change for a given physical overseas MET site.

8801 = An overseas MET site designated as the number (01) overseas MET site for a particular MEPS.  
The second overseas MET site for that particular MEPS would be given a 8802 code and so on.

**Appendix E**  
**USMEPCOM Form 611-1-6-R-E Instructions**

MET Site: Self explanatory.

Period of Evaluation: Self explanatory.

1. Enter the number of miles to the closest MET site and MEPS.
2. Applicants per MET site session.
  - a. Total sessions expended for period being evaluated.
  - b. Total applicants testing during same period in a.
  - c. Average applicants per session (divide 2b by 2a).
3. This portion determines the cost of testing one applicant at the nearest test facility (MEPS or MET site).

**Note:** Figures include transportation and lodging. Obtain costs from the MEPS budget and assistant.

- a. Transportation mode (i.e., bus, train, vehicle, etc.) and cost.
  - b. Food and lodging (if applicable).
  - c. Cost per applicant (add 3a + 3b).
4. This portion is figured on the cost per session at MET site. Evaluate OPM costs only.
  - a. Basic session cost (per USMEPCOM/OPM MOU).
  - b. Site cost (NA).
  - c. Shipping cost for test packets (if applicable).
  - d. Total cost per session (add 4a + 4b + 4c).
5. This portion determines the cost per applicant. Enter cost per applicant (divide 4d by 2c; compare this figure with 3c).

**Glossary**

***Section I***  
***Abbreviations***

**AC**

area coordinator

**AFAST**

Alternate Flight Aptitude Selection Test

***Section II***

***Terms***

**day test session**

Test session that starts between the hours of 0600 and 1359.

**in-house testing**

Testing within the MEPS.

**invalid test**

An ASVAB test/retest where the scores are nullified for enlistment.

**MET site**

A military entrance test location outside the MEPS used for the administration of the ASVAB, staffed by either MEPS or OPM personnel.

**night test session**

Test session that starts between the hours of 1400 and 0559.

**special purpose test**

Tests used to determine qualifications of applicants for specific occupational specialties.
