2016 Back-to-school Kit for Counter-recruitment and School Demilitarization Organizing

WHAT IS IN THIS KIT?

The kit is a catalog of basic material useful to educating young people and school personnel about the realities of military enlistment and war. The catalog also includes some information on alternatives to enlistment, as well as items written for organizers seeking to reach out to local schools.

All of the material in this catalog was carefully reviewed for relevancy and accuracy as of the summer of 2016. A task force of knowledgeable organizers did the research. It does not include all of the available literature on this topic because much of what exists is out of date or is no longer being produced by the original sources. Consequently, we focused on identifying items that we felt were basic and most useful for effective organizing and educating. New items may be added to future kits as they become available.

HOW TO USE THE KIT

It's very simple: Read the descriptions in the catalog and then go to the links that are listed to view or download documents that are relevant to your local organizing. In some cases, you will be able to reprint them for local reproduction; or, you will be able to order copies in bulk if they are offered by the original source.

HOW THE KIT IS ORGANIZED: The catalog groups items into the following subject categories:

Counter-recruitment	Non-military Careers / College and Service Alternatives	Gender and the Military	Delayed Entry Program (DEP)
JROTC	Privacy (Opt Out Forms/ ASVAB etc.)	Resources for Organizers	NNOMY Contact Information

Most of the material is optimized to meet legal equal access standards for distribution by nonstudents inside schools (i.e., it only addresses the realities of military enlistment and war, or presents alternative options). Items are specially marked to indicate if they have content that is not optimized for what the federal courts have allowed or if they are included in the catalog for other special purposes.

This kit can be viewed online at <http://bit.ly/2016CRkit>

NOTE: If you wish to print the catalog, be sure to choose the landscape setting in your print menu (i.e., horizontal).

Catalog of Counter-recruitment Materials

NOTES:

An item marked with an asterisk () has some content that may fall outside the legal boundaries that apply to general distribution by NONstudents inside schools. Some activists may have used the item with no problem, but it is possible for schools to deny NONstudents equal access to distribute the item.

An item marked with a double asterisk () is not intended for general distribution to students inside schools. It is designed for distribution to school staff or offered here to inform organizers.

Counter-recruitment

Title	Description	Link
Before You Enlist (video)	Short video (14 minutes) exploring the dangers and false assumptions about the military.	http://www.beforeyouenlist.org
